LOCAL OPTION DAYLIGHT LAW

Governor Will Not Press Flat Repeal of Saving Statute, It Is Understood

BILL CURBS STRIKES

Unwarranted Strikes and Lockouts Would Be Prohibited by Resolution of Erie Assemblyman

Albany, Feb. 14. — Governor Miller is not expected to insist that the legislature pass a flat daylight saving repeal bill.

This became known tonight when it was learned that he had discussed the question with several Republican members in the legislature, representing both urban and rural populations.

According to information obtained tonight, the governor is reported as being in favor of a local option bill in accordance with the plank in the platform on which he made his campaign last fall. This plank promised an amendment to the present law exempting the rural localities from the provisions of the act.

A conference of the Republican members of the assembly will take place tomorrow when it is expected some sort of a compromise bill will be agreed upon.

New York city members, it is understood, will vote solidly against a flat repeal bill.

The repeal of the daylight saving law and permitting a city or village to provide by ordinance for daylight saving is the object of a bill introduced tonight by Senator Seymour Lowman, Republican, of Elmira.

No War Debt Cancellation.

Albany, Feb. 14.—A resolution placing the state legislature on record as opposed to the cancellation of Great Britain's war debts to the United States was offered in the legislature tonight by Assemblyman Michael F. Reiburn, Democrat, of New York. Under the assembly rules the resolution went over until tomorrow. Another resolution by Assemblyman Frank R. Galgano, Democrat, of New York, demands a congressional investigation of the present "lack of agreement between the federal and state authorities in efforts to prevent the introduction of typhus and pediculesis in the United States. This resolution also went over until tomorrow.

A third resolution, offered by Assemblyman Arthur E. Brundage, Republican, Orange, memorializes congress to pass legislation designed to provide for the transportation to this country of the body of an unknown American soldier who fell on the battlefield of France during the World war for burial with appropriate military ceremony in Arlington National cemetery.

Assemblyman John J. Wackerman, Democrat, of Kings, introduced a resolution calling upon the public service commission to issue an order directing the Metropolitan avenue line of Brooklyn to provide "adequate service."

Against Unwarranted Strikes.

Albany, Feb. 14.—A bill aimed to prohibit unwarranted strikes or lockouts was introduced in the legislature tonight by Assemblyman George F. D. Brady, Republican, of Erie.

Provisions of the bill are intended to prevent strikes or lockouts carried on by employes whose term of employment are fixed by United States, the state or any political sub-division thereof; by employes in any industry or employment furnishing necessary service to public or regularly producing and furnishing necessaries of life or in violation of agreement or for conditions of employment conflicting with agreements of employers and employes or an employer and any organization of employes; or in violation of any arbitration or award for or conditions of employment conflicting with terms thereof, or where there is no trade dispute involving issues of direct benefit to the acting party.

Hospital Hours of Labor.

Albany, Feb. 14. — A bill to provide that eight consecutive hours shall constitute a day's work for attendants, nurses and other employes of state hospitals, was introduced in the legislature tonight by Assemblyman Maurice D. Reiss of New York. Provision is made for the suspension of the operation of the law in cases of epidemics in hospitals.

Permits Sheriff Re-elections.

Albany, Feb. 14. — A bill designed to permit sheriffs to seek re-election was introduced in the legislature tonight by Assemblyman W. W. Campbell, Republican, of Schenectady.

ALLEGE MAIL FRAUDS

Attempts Were Made on Coal Dealers Under Indictment for Alleged Lever Act Violations.

New York, Feb. 14.—Gibbs L. Baker, a lawyer of this city and Washington, and Charles L. Allen were indicted by a federal grand jury here today, charged with conspiring to defraud through the mails several coal dealers under indictment for alleged violations of the Lever act.

The indictments set forth that Baker represented to the coal men that he had great influence with W. N. Speers, special assistant attorney general, and other officers of the department of justice. He further represented, the indictment stated, that Speers "would eat out of his hand" and do anything that Baker directed.

Baker is alleged to have received $1,000 and $4,000 as a result of his representations that he could protect the coal men from prosecution.

HIGHER STANDARDS OF LIVING PREVAIL

Herbert Hoover Also Declares Productivity for Advancement of Civilization Is Improving

Syracuse, Feb. 14. — Continuous improvement in productivity is necessary for the advancement of civilization, national progress, better human relations and higher standards of living, Herbert Hoover declared in an address here tonight before the convention of the American Engineering council.

American industry, including agriculture, he said, is at present running from 30 to 40 per cent below capacity production. Co-operation between industries and with labor and government was cited as a means for guaranteeing an increase which would be certain "even if it is slow." The danger of over-supply as a limiting factor in production was dismissed as without "proper foundation." The speaker added there is no such thing as over production.

"The commodities or services produced by the whole nation," he continued, "are capable of absorption by the whole nation if they are of the right character. When 10 men or 100,000,000 men divide their united output, they can, by doubling their output, have twice the amount to divide. There is no limit to the increase of living standards except the limitations of human strain, scientific discovery, mechanical invention and natural resources.

"The absorption of increased productivity lies in the conversion of luxuries of today into necessities of tomorrow. Wheat bread, railways, good roads, electricity, telephones, automobiles and movies were once luxuries. There is no limit to consumption except the total capacity to produce, provided the surplus of productive powers is constantly shifted to new articles from those that have reached the saturation point of demand."

The speaker said that wastes in American production were measured mainly in unemployment, lost time due to labor conflict, losses in labor turnover, failure to obtain maximum production of the individual, poor coordination of great industries and failure in transportation, coal and power supplies.

COAL BILL HEARINGS ARE SOON TO CLOSE

Morrow Denies Flatly His Association Ever Attempted to Influence Cut in Production

Washington, Feb. 14. — Hearings on the Calder bill to regulate the coal industry before the senate manufacturers committee has approached a close tonight, members of the committee stating after an executive meeting that it was their intention to take additional evidence on only one or two details. It was not indicated, however, when the committee would be ready to report to the senate. J. A. D. Morrow, vice president of the National Coal association, an organization of operators, recalled today by the committee, denied flatly that the association had ever attempted to cut production, or to regulate the industry by combination of its members.

Challenging other evidence before the committee as to excessive profits of coal production during 1920, Mr. Morrow introduced a statistical study which showed, he said, that the larger mining companies received lower prices than the smaller concerns during the year and made smaller profits. At present prices of coal, he said, 404 corporations included in his study would not average a three per cent return on capital invested. Prices now prevailing on coal, Mr. Morrow said, would hold operators' profits to a low level.

CENTER OF POPULATION OWEN COUNTY, INDIANA

Washington, Feb. 14. — The center of population, as disclosed by the 1920 census, is located in the extreme southeast corner of Owen county, Indiana, 8.8 miles southeast of the town of Spencer, the census bureau announced today.

During the last decade the center of population continued to move westward, advancing 9.8 miles in that direction and about one-fifth of a mile north from Bloomington, Ind., where it was located by the census of 1910.

The bureau attributed the westward movement in the last decade "principally to the increase of more than 1,000,000 in the population of the state of California."

DEMPSEY PLANS TOUR OF EUROPEAN CITIES

Boston, Feb. 14.—Jack Dempsey, world heavyweight champion, will make a European tour next month. He will go to England and France for exhibition bouts that will extend over six weeks. His present plans provide only for his meeting sparring partners, who will accompany him, as he can take part in no contests before his bout with Carpentier, which has been set for July 2 at New York.

Jack Kearns, Dempsey's manager, made this announcement during a visit here today.

FIX RAIL EXCHANGE RATE.

Ottawa, Ont., Feb. 14. — The board of railway commissioners announced today that from February 15 to 28, the rate of exchange in connection with shipments of freight between points in Canada and the United States would be 14 per cent. The surcharge on such traffic will be eight per cent.

TARIFF ACTION DEVELOPS FAST

Presidential Veto of Fordney Emergency Bill Is Assured, Underwood Declares

EXPECT VOTE TONIGHT

Republican Plans for Revision of Permanent Tariff Made Public in Fordney Letter

Washington, Feb. 14. — (By the Associated Press). — Developments centering around tariff legislation came fast in congress today. They included:

Declaration by Minority Leader Underwood in the senate that he had received assurances that President Wilson would veto the Fordney emergency tariff bill, not by a mere withholding of his signature, but with a comprehensive statement giving his reasons coupled with a final attack on Republican congressional policy.

Announcement by Senator McCumber, Republican, North Dakota, that a vote on the Fordney bill probably would be obtained tomorrow night.

Underwood Is Reticent.

The statement by Chairman Fordney of the house ways and means committee making definite the intention of Republican leaders to press legislation revising the permanent tariff through the extra session before attempting consideration of taxation questions.

The Fordney bill was pulled out of its pigeon hole for several hours of debate late in the day. Nothing came of it, however, although it had been expected that a vote would be had on the amendment of Senator Smoot, Republican, Utah, changing the import rates on sugar from those accepted by the senate finance committee.

Senator Underwood was reticent about his assurances of a presidential veto. He declined to say whether it came from the President direct and refused to answer questions relative to the form in which the information came. The statement of the minority leader, however, was the cause of speculation among senators on both sides of the emergency tariff question. It was generally accepted that as a result of the White House attitude the Democrats were more than willing to let the measure go to a vote where all senators' records coul be preserved. At any rate, the session today gave no evidence of the parliamentary jockeying and dela, which characterized the earlier debate on tariff.

Republican Plans Divulged.

Plans of the Republican leaders concerning revision of the permanent tariff were made public in the form of a letter by Mr. Fordney to Representative Frear, Republican, Wisconsin. Any program, Mr. Fordney said, which did not contemplate immediate action on revision of the Underwood tariff act would not be in accordance was the "overwhelming expression of the people" in the November election.

The house ways and means committee, it's chairman indicated, will launch into the work of framing the new tariff law immediately after the hearings now in progress are concluded, probably within the next few days. The bill then will be made ready for introduction and consideration in the house in the early days of the extra session.

"After the tariff bill has passed the house," Mr. Fordney's letter continued, "and during the time it is being debated in the senate, time will be afforded to prepare a new revenue bill and to conduct hearings on which tax revision should be based."

Chairman Fordney also scouted published reports that the committee's mind was made up with respect to a sales tax and said that full consideration was to be given all revenue suggestions.

ENDEAVOR TO FIX BLAME FOR WRECK

Three Separate Investigations in Long Island Railroad Collision Sunday Are Instituted

New York, Feb. 14. — Three separate investigations were begun today to determine responsibility for the Long Island railroad collision in Brooklyn last night in which 15 persons were seriously injured and scores of others slightly injured.

Edward Costello, the motorman, was arraigned, charged with felonious assault. He was released on $5,000 bail.

The investigation is being conducted by the police, the Brooklyn district attorney and the railroad company.

Costello is alleged to have disregarded a danger signal in switching his local train across the track of the express which crashed into it, cutting it in two. Only the steel framework of the cars prevented a great loss of life, railroad officials said today.

Of the seriously injured, only one, William VanTwistern, a passenger, is in a critical condition.

STRANDED STEAMER RESCUED.

Halifax, N. S., Feb. 14. — The British steamer Bristol City, caught in an ice pack without fuel, has arrived in Lousburg, N. S., her agents announced here tonight. The vessel sent out calls for assistance last Friday, stating that her coal supply was exhausted and stating that her woodwork and cargo were being burned for fuel.

RECRUIT NEW FORCE FOR TRACTION JOBS

Albany Company Will Open Employment Offices to Fill Vacancies Caused by Strike

Albany, Feb. 14.—All talk about arbitration between the United Traction and the 1,200 men who went on strike 17 days ago apparently evaporated today, when Harry B. Weatherwax, vice president of the company, announced that employment offices would be open to recruit new working forces to operate trolleys in the seven municipalities affected by the walkout.

This would be done, he said, as strikebreakers now at work open up service on all lines in Albany and Troy, most of which still are clogged by snow.

Meanwhile, the strikers continued preparations for waging their fight to a finish. They called public meetings at Troy and at Watervliet to discuss the situation and the company's refusal to arbitrate the 25 per cent wage reduction, which precipitated the strike. Entertainments and other fund raising plans to relieve strikers were included in their program.

Strikebreakers today cleared the snow from several miles of track in both Albany and Troy. Sub normal service on one of the eight lines here was resumed in the afternoon, but no one was seen patronizing the cars. Only one passenger was reported in the day's operations of a single car at Troy. No disorders occurred in either city and only one or two policemen rode each car.

Warmer temperatures melted much of the snow today and it was expected that many more miles of track would be cleared tomorrow.

As a direct result of the tie-up of the street railway system, Assemblyman John T. Merrigan, Democrat, of Albany, tonight introduced in the legislature a bill designed to enable the city of Albany to provide a municipal bus service.

It is not a mandatory measure, Assemblyman Merrigan explained. It leaves the decision to purchase and operate the buses to the board of estimates and apportionment, all of whose members are Republicans.

Asssemblyman Merrigan later tonight amended his bill so as to make it permissible for any second class cities to operate its own bus system.

Troy, one of the cities in which street car service was suspended by the United Traction company's strike, would be permitted to operate busses under the amendment.

NAVAL BILL PASSES; AMENDMENT IS LOST

Measure Carries Appropriations of Approximately $95,000,000 for Navy Department

Washington, Feb. 14.—The naval appropriation bill, carrying approximately $395,000,000 was passed today by the house after it had decisively voted down an amendment which would have prevented the expenditure of any part of the $90,000,000 provided for battleship construction until an international disarmament conference shall have been called by the President. The amendment offered by Representative Brooks, Republican, Illinois, was defeated 124 to 30.

The house also refused to cut the amount that would be available for work on the navy's building program during the coming fiscal year to $50,000,000 as proposed by Representative Dickinson, Republican, Iowa, and by a vote of 282 to 9, defeated a motion by Representative Blanton, Democrat, Texas, to recommit the bill for the purpose of cutting the appropriation for construction work to $7,000,000 and eliminating a section which prevents the use of stop watches in navy yards and arsenals.

The measure, as it goes to the senate, however carries an amendment offered by Representative Oliver, Democrat, Alabama, that no part of the $90,000,000 carried for new craft shall be used on new ships on which construction was not started or for which contracts have not been let. Chairman Kelley of the sub committee, that framed the bill, agreed to this limitation, saying it would mean that work could not be started before July 1, 1922, on twelve destroyers, six fleet submarines and one transport, authorized in 1916, but not yet placed under contract.

Although somewhat riddled by points of order that had been made against the number of sections, the bill, as far as its nine features are concerned, was approved by the house practically as it was repored by the appropriations committee.

SHIP WORKERS CUT.

Philadelphia, Feb. 15. — A ten per cent wage reduction, effective immediately in four Atlantic coast yards of the Bethlehem Ship Building corporation for hourly and piece work, was announced here today by Clarence King, secretary of the Atlantic Coast Ship Builders' association. Mr. King also announced that similar wage reductions are planned by other shipbuilding companies, effective March 1, but added that prior to that date referendums would be held by employes of the companies concerned.

FALL TRAPS SMUGGLER

New York, Feb. 14. — The bulging coat of Harry Feinstein, ship's barber, who slipped and fell on the gang plank as he was leaving the steamship Old North State, arriving from Hamburg today, aroused the suspicions of customs officials. Examination revealed $20,000 worth of Bird of Paradise feathers concealed in an ingeniously made "life jacket," they said. The feathers were confiscated and Feinstein was arrested on a charge of smuggling.

FINAL PROBLEMS BEFORE HARDING

Two Most Conspicuous Figures in His Election Will Be His Next Conferees

IS SEEN BY DAWES

Chicagoan Recommended For Secretary of the Treasury Spends Day in St. Augustine

St. Augustine, Fla., Feb. 14.—Final problems relating to the personnel and initial policies of the coming administration will be reviewed in great detail by President-Elect Harding during the next two days in conference with the two men most irectly in charge of the political machinery which brought about his election.

Will H. Hays, of Indiana, chairman of the Republican national committee, and understood to be in line for the postmaster generalship, came to St. Augustine tonight and will remain until Wednesday. He saw Mr. Harding during the evening and they are expected to spend several hours together tomorrow.

Harry M. Dougherty of Ohio, head of the Harding preconvention campaign and generally regarded as the next attorney general, is to reach here Wednesday for a like consultation with the President-Elect. It is with these two that Mr. Harding talks most with regard to the patronage of his administration and the conversations with them this week are expected to relate to many prospective appointments from the cabinet down.

It is also likely that such questions as the inaugural address and plans for the special session of congress will be considered. In describing the purpose of the visit of his two managers, Mr. Harding said he would talk with them about "general business for the good of the order."

Today the President-Elect disposed of a miscellaneous batch of appointments and found time to do considerable work and correspondence. One of his companions in his afternoon golf game was Charles G. Dawes of Chicago, whom he has been urged to appoint secretary of the treasury.

A plea that the nation forget the animosities and partisanship of the after-war period and put its shoulder unstintingly to the wheel of reconstruction is expected to form the keynote of Mr. Harding's message to his fellow countrymen when he comes into the presidency.

Although the inaugural address still is far from complete, it was learned today that considerable work had been done towards its preparation and that the subjects it is to cover virtually had been selected. It is understood it will be very brief and will attempt no detailed discussion of any of the problems awaiting solution. One of the features is expected to be an appeal for confidence in the nation's business stability, linked with an assurance that during the next four years the administration will keep away from meddling methods in its relations with the business world.

ORDERS WAGES RESTORED

Erie Railroad Must Place Track Laborers Back on Scale in Vogue Before Cut to 30 Cents.

Chicago, Feb. 14.—Pleas that the Atlanta, Birmingham and Atlantic wage controversy now between the United States railroad labor board be declared without the board's jurisdiction and the present wage rates be continued, were overruled by the board today.

The board's ruling decided that each side in the controversy be permitted to present its evidence in its own way. Any evidence considered irrelevant would be stricken out later, it was announced.

A ruling of the board today ordered the Erie railroad to withdraw its reduction of track laborer's wages to 30 cents an hour and another provision which prescribed a seven day week for telegraphers. Complaint was filed with the board recently following posting of the wage reduction.

O'BRIEN ADMITS PART IN MOTOR CAR THEFTS

New York, Feb. 14. — An alleged confession by Thomas O'Brien here today that he transported stolen motor cars to New York under "police protection," characterized by former Governor Whitman as "important," was said by his associates to definitely connect motor car thieves and members of the police auto squad.

O'Brien made an affidavit, Mr. Whitman said, that he stole cars in New Jersey and transported them to New York to be sold or otherwise disposed of. He also is said to have told Mr. Whitman that he had stolen a large number of machines since January 1, but he had "laid off" after the city investigation started.

HALT TROOP WITHDRAWAL.

Washington, Feb. 14.—Orders were issued by the war department late today to stop preparation for withdrawal of federal troops from the West Virginia coal fields. Senator Sutherland of that state announced after having presented to the department a request that the troops be retained there during the present trial of mine workers and others at Williamson.

ROCHESTER VICE INCREASING.

Rochester, Feb. 14. — Rochester police made 900 per cent more arrests for intoxication in January, 1921, than they did in January, 1920, according to the report filed by Police Chief Quigley. Thirteen arrests were reported in January, 1920; the report for last month is 129.

HYLAN IS AGAINST MILLER'S PROGRAM

New York's Mayor Favors Inauguration of Municipal Bus Lines to Correct Transit Problem

New York, Feb. 14. — Mayor Hylan, addressing a meeting of Democratic state legislators from New York city called here today to protest against Governor Miller's transit program, declared that if the people of this city "had been allowed to handle the traction problem with a free hand there would be no traction problem and the people would be receiving transit accommodation to which they were entitled."

Asserting that the people of New York should "not be interfered with or hamstrung by legislative commissions," the mayor said:

"I maintain that the additional proposals to create a commission to poke into such public utilities as gas and electricity in this city is absolutely without warrant."

Municipal bus lines should supplement municipal operation of subway lines, the mayor declared, and such lines, he predicted, will replace the surface lines.

Legislation empowering the city to terminate operations of the surface lines was urged by Comptroller Craig. He declared the north and south surface lines are obsolete and annually cost the city millions of dollars by obstructed traffic along routes which are paralleled by rapid transit lines. He characterized Governor Miller's plan as "nothing more nor less than an increased fare plan."

Albany, Feb. 14.—An abstract of the bill that will be introduced in the legislature this week to carry out Governor Miller's traction recommendation, was made public at the executive chamber tonight.

In form, the measure is an amendment to the Public Service commission act. It is designed to provide for two commissions, a state wide Public Service commission and the local transit committee for New York city.

Jurisdiction over gas and electric matters throughout the state would be lodged with the Public Service commission in addition to its existing authority over railroads, street railways, telephone and telegraph companies and steam companies.

The Public Service commission as proposed in the bill is to be composed of five members with terms of 15 years, subject to removal in the same manner as justices of the supreme court. There would be three transit commissioners and in their case the five years' term of office and the provision for their removal by the governor are unchanged. Members of the transit commission must be residents of New York city.

The bill carries the exercise of the police power of the state to modify rates, either by way of increase or decrease, "upon terms, conditions, safeguard or readjustment or franchise rights or application as the commission may prescribe."

The bill will be introduced this week by Senator John Knight of Wyoming, chairman of the committee on public service, and Assemblyman Lewis M. Martin of Oneida.

FOIL COMMUNISTS' MAY DAY PLOTS

Overthrow of Governments in Spain, Italy and France Was Planned, Documents Reveal

Paris, Feb. 14.—(By The Associated Press—The overthrow of the Bourgeois governments of Spain, Italy and France is outlined in documents seized after a thorough search today, following up the discovery of widespread communists' plots. The date fixed by the communists for this event was May 1, 1921.

The contemplated arrest of two communist members of the chamber of deputies, alleged proof against whom Judge Jousselin has delivered to M. Marraud, minister of the interior, seems to have brought the French public to a realization of the importance of the attempt against the security of the state.

Discoveries made by the police of Barcelona and Milan show that the plot includes the three European Latin countries. Transmission of funds was effected through an American financial organization, with the European headquarters in Paris and branches in Berlin and Vienna.

The Soviets have been organized throughout France with Brest as headquarters, according to the police, ready to take over the railroads, banks and transportation and all civil services. The plots appear to have been organized without knowledge of M. Cachin, leader of the French Communist party.

The discovery of checks emenating through from Berlin and paid through an American transportation company, appears to have caused a revulsion of feeling in French political and official circles, and also among the working men's committee.

MISUSE OF WORLD WAR INSIGNIA A MISDEMEANOR

Albany, Feb. 14. — The assembly tonight passed the Neary bill, which is intended to make the fraudulent wearing of any badge, insignia, clasp, rosette or button issued by the federal government, the state or foreign governments with which the United States was allied in the world war a misdemeanor.

The Donohue bill proposing to make it a misdemeanor to use any vehicle other than the one owned or used by the state or any representation or device of arms of the state, also was passed.

ACCUSES LANDIS OF HIGH CRIMES

Acceptance of Baseball Dictatorship While Still Serving on Bench Basis of Attack

BOLSHEVISM HINTED

Judge's Decision in Case of Illinois Bank Clerk Also Is Vigorously Denounced

Washington, Feb. 14.—On charges of high crimes and misdemeanors, Federal Judge K. M. Landis of Chicago, was impeached in the house of representatives today by Representative Welty, Democrat, Ohio, because of his acceptance of the office of supreme arbitrator of baseball while still serving on the bench.

In taking this step the Ohio member swept aside an opinion by Attorney General Palmer that Judge Landis was within the law and that there was no law making such acceptance a crime, either misdemeanor or felony. The opinion was rendered recently by the attorney general on the written request of Mr. Welty, who had questioned the judge's right to hold both positions.

Dial Has Grievance Also.

Before proceeding on the floor of the house where his charges were read, Mr. Welty refused a request by Senator Dial, Democrat, South Carolina, to include in the general indictment statement attributed to Judge Landis in refusing to send to jail a young Ottawa, Ill., bank clerk, because of the belief that officials of the bank who were responsible for the clerk's speculations by failure to pay him a living wage.

Senator Dial, on receiving the Ohio representative's refusal, announced he would file complaint against Judge Landis with the department of justice and late in the day attacked the Chicago jurist on the floor of the senate, describing him as a "freak" and a "crank." The South Carolina Senator characterized Judge Landis' statement that the Ottawa bank clerk's employers were in a measure responsible for the theft of $96,000 as the most Bolshevik doctrine I've ever heard" and added that if the action taken by the judge in parolling the clerk amounted to encouragement of such acts as those of the clerk, it is "striking at the foundation of our government."

No Comment in House.

There was no comment in the house when Mr. Welty concluded the reading of the formal indictment of Judge Landis. On his own motion, which is customary in such proceedings, the indictment was referred to the judiciary committee without debate. Less than a third of the members present voted and a number of scattering voices were lifted in opposition. Nobody asked for a rising vote. Representative Sherwood, Democrat, of Ohio, sitting in the front row, clapped his hands, but otherwise, there was no indication as to how the house felt.

The next step will be by Mr. Welty, who will appear, possibly this week before the judiciary committee, with such witnesses as he sees fit to call to amplify his charges. The committee will then decide whether to go ahead with the case. It has the power to dismiss the charges and so report to the house and adoption of such a report would exonerate Judge Landis of the charges preferred by Mr. Welty.

IMPLICATE RUSSELL BRYCE

Sing Sing Prisoner Is Linked With Bootlegging Operations of Eckert and Frank Walsh.

New York, Feb. 14.—Information connecting Russell Bryce, now a prisoner in Sing Sing, with bootlegging operations of Frederick Eckert and Frank Walsh, alleged leaders of bootlegging gangs, both of whom were murdered, was made public today by District Attorney John Malloy of Staten Island, together with in indictment charging Bryce with murder in connection with Eckert's death.

Eckert was found dead in an automobile near South Beach, Staten Island, last August. Walsh was shot to death near New Brunswick, N. J., last Thursday. The indictment against Bryce was one of three returned in connection with the Eckert murder, but the names of the other two indicted were not disclosed, as they had not been arrested.

B. R. T. SEEKS $20,000,000 DAMAGES FROM NEW YORK

New York, Feb. 14. — A damage suit of $20,000,000 is contemplated against the city of New York, Lindley M. Garrison, receiver of the Brooklyn Transit company, announced in federal court during the trolley hearing today. He told Judge Mayer that he had drafted a bill of complaint and that he would consult the court later for instructions.

The complaint alleges that contract work of the company was delayed by the city for eight years. The original contract called for the expenditure of $60,000,000 and the company officials assert completion of the work will now cost $80,000,000. The suit, if permitted, will be for the difference.

FIX CUBAN SUGAR PRICE.

New York, Feb. 14. — Reports from Cuba that President Menocal has appointed a committee to handle the marketing of the present sugar crop, with rumors that a minimum price of five cents per pound was to be fixed, had a bullish effect in the sugar market today and the market was strong in all departments.

FINE FOR RHEUMATISM

Musterole Loosens Up Those Stiff Joints—Drives Out Pain

You'll know why thousands use Musterole once you experience the glad relief it gives.

Get a jar at once from the nearest drug store. It is a clean, white ointment, made with the oil of mustard. Better than a mustard plaster and does not blister. Brings ease and comfort while it is being rubbed on!

Musterole is recommended by many doctors and nurses. Millions of jars are used annually for bronchitis, croup, stiff neck, asthma, neuralgia, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

MUSTEROLE

Bushnell, [illegible]; H. Hotchkiss, 162; Scott, 157; Barnes, [illegible]; Dickinson, 152; Dobbin, 150; McMaster, 150; Church, 150; Chiocchetti, 150; Pedrick, 149; Kaiser, 149; [illegible] Dennis, 147.

Thomas still holds the highest individual honors of the tournament, his three-game total being 612 and one-game total, 240. The Packards have the best team [illegible] for one game and 2,612 for three games.

The Grants were out in full force for last night's match, but only two of the Nashes appeared, and as a consequence all three games were forfeited to the Grants, although they did not succeed in winning a game outright. It is hoped that more interest will be shown in the tournament during the remaining weeks, as bowling is a great deal more sport when there is a large turnout of the men.

Last night's scores follow:

GRANTS—			
Shotta	205	145	201—551
Ormiston	132	157	161—440
E. Currier	131	187	168—386

Totals	764	760	780—2304

To Get up in the morning tired and unrefreshed, with a dull, heavy head, often amounting to headache, to feel low-spirited and "blue"—are symptoms of self-poisoning by food poisons, not neutralized or eliminated by bowels, liver and kidneys acting in harmony.

Beecham's Pills

help to remove the cause of this trouble. They act gently and safely, but also very efficiently.

Sold by druggists throughout the world. In boxes, 10c., 25c.

SIZE AND GARDEN METHODS

Experience Indicates That Plenty of Space Intercropping Doesn't Pay.

The size of the garden should have a decisive effect on the gardening methods used, say gardeners who have worked both small and large areas.

Broadly speaking, the state college of agriculture thinks the distinction holds between the garden of limited area and the farm garden, which holds between European and American farming—one seeks the greatest possible production from a given area, the other maximum production from a given amount of time and labor.

The gardener who has plenty of land to dispose will do well to have long straight rows spaced far enough part for horse cultivation, or at least for easy wheel-hoe work, and he need give little attention to the conservation of space by intercropping and succession cropping.

The gardener whose land is limited, however, and whose leisure hours are relatively plentiful, may be an intensive gardener.

He will have his soil as fertile as possible, space the rows closely, and try to follow one crop by another the same year. Radishes grown between rows of parsnips or carrots will be gone before the latter crops need the space. Lettuce may be grown between cabbage rows and even between cabbage plants in the row. Onion sets may be thrust into the ground wherever there is a vacant space and used early as green onions. Peas and early turnips may be removed in time for late snap beans, in most parts of the state.

PROPOSED TAX EXEMPTION.

New York, Feb. 14.—Support by the board of aldermen of a proposed ordinance to exempt new dwellings from taxation for a period of 10 years, was urged by Senator C. C. Lockwood, chairman of a joint legislative committee on housing, in a statement here today. The ordinance will come before the board Tuesday. Senator Lockwood declared that such action would stimulate building loans by giving creditors greater assurances of security and also relieve the unemployment here.

Chief Gardener at Auburn.

Newell Y. Evans of Binghamton, who something more than a year ago was convicted of murder in the first degree for the shooting of Vera Rickford and her mother in that city and who was sentenced to twenty years in the Auburn state prison, now has charge of the big greenhouse in the prison and is its chief flower gardener. When first taken the Auburn Evans was assigned to clerical work, but was not satisfied and a little later was transferred to the greenhouse.

Gasoline Drops Price Again.

New York, Feb. 14.—The Standard Oil company of New York today reduced the price of gasoline two cents a gallon, making the wholesale price 28 cents. This is a three-cent drop from the high mark of 31 cents reached in 1920. Kerosene was also reduced one cent a gallon, making the wholesale price 17 cents.

Kills Himself Accidentally.

Islip, Feb. 15. — Harvey P. Walker, 46, former assistant corporation counsel of New York city, accidentally shot and killed himself today with his own revolver. He was cleaning the weapon when it discharged.

The ever-increasing sales of Juniata Brand Margarine are the result of cause and effect. The pleased customer naturally continues buying what is good; and she generally tells her neighbor. 1w

NO CHANGES SEEN IN MARKET TREND

Money Follows Its Usual Set Course, Call Loans Holding at Seven Per Cent

New York, Feb. 14. — Aside from the general strengthening of the banking position throughout the country, as indicated by returns to the Federal Reserve board, the week in the stock market opened with no visible change from the recent dull and uncertain conditions.

Most other developments bearing upon values were very much of the same general character as those which have kept the financial and commodity markets in their reactionary and narrow group during the last two months.

Improvement in grain prices created a more cheerful sentiment at western and southwestern agricultural centers, but this was again offset or largely neutralized by wage reductions, suspended dividends and evidence of diminishing investment demand.

There was little in the stock market to call for specific comment until the final hour, when shorts rushed to cover and buying orders appeared in the usual favorites. Mexican Petroleum, Baldwin Locomotive, Studebaker, Baker and Atlantic Gulf at net gains of two to four points contributed mainly to the strong close. United States Steel and Reading, the latter throwing off its early heaviness, also were conspicuous. Sales amounted to 500,000 shares.

The money market followed its usual set course, call loans holding at 7 per cent on the exchange, but easing fully one per cent in private offerings. British and other leading foreign remittances were appreciably better, except Italian and Scandinavian rates.

Liberty bonds were irregular, the 3½'s displaying further heaviness. Most other domestic and foreign issues were without definite trend on a moderate turnover.

How to Make Pine Cough Syrup at Home

Has no equal for prompt results. Takes but a moment to prepare, and saves you about $2.

Pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several elements that have a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made for three times the money. It is pure, good and tastes very pleasant.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will soon fix it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

Shorty puns into "Snapper" Teebo!

Atlanta, Wednesday

Dear PETEY:

Checked up our old dormitory pal "Snapper" Teebo this morning waiting on an appointment down Peachtree St. "Snap" wanted to know a bookfull about my visit to the Camel factories. "Tell us old apple seed," says "Snapper", "you're on the inside"! "Snap" still has that mighty annoying way of saying, "But that doesn't surprise me."

Anyhow—when I explained about the millions of Camels R. J. Reynolds Tobacco Co. made daily what does the old bird sputter but: "Why, Shorty, they'd have to make that many to supply the demand! Camels have the quality smokers want! And, they have the most wonderful mellow mild body and the most refreshing flavor ever created in a cigarette! *Of course* they make Camels by millions; *of course* they buy enough revenue stamps from Uncle Sam every day to build a duplicate of the Winston-Salem post office! Why not? Smokers everywhere will have Camels!"

But, "Snap" finally got to spilling some real nobby Camel selling stuff! "Shorty," says he, "I want to put it on record that in all the times I've pulled Camels out of my pocket to supply somebody's shortage I've heard enough good things said about 'em to fill a volume! 'That's my brand'; 'Camels are a wonderful cigarette'. 'Like getting money from home,' etc.

"And, Shorty, what's the answer? Why—Camels blend of choice Turkish and choice Domestic tobaccos meets the universal taste! And that's the 'hole' story, old golf ball"!

Pete, you pet phonograph, did you ever hear a better record?

Sincerely,

Shorty.

MILFORD WINS FAST GAME.

High School Boys Defeat Cooperstown Quintet by 17-16 Score.

Milford, Feb. 14.—The Milford High school team went to Cooperstown Friday evening and defeated the Presbyterian basketball team of that village, 17 to 16. Cooperstown had the game its own way the first half, but the Milford boys started things in the last round and defeated their opponents. Miller for Milford did some splendid work, making five baskets. The score follows:

COOPERSTOWN—	F. B.	F. P.	T. P.
Litcher, rf.	2	4	10
Burdett, lf.	1	0	2
Smith, c.	1	0	2
Morris, rg.	0	0	0
Bowne, lg.	1	0	2
Owen, lg.	0	0	0
Totals	5	4	16
MILFORD—			
Harrison, rf.	2	0	4
Vance, rf.	0	0	0
Miller, lf.	5	0	10
Sewell, c.	0	0	0
Osborn, rg.	0	2	2
Townsend, lg.	0	0	0
Totals	7	2	17

Referee, Raubaucher. Fouls called on Cooperstown, 7; on Milford, 9. Score at end of first half, Cooperstown 9, Milford 4.

Auto Runs Into Mail Sleigh.

While E. W. Salisbury, mail carrier on R. D. 1 from Milford post office, was returning from his trip Friday, he was run into by an automobile and his sleigh badly demolished. Mr. Salisbury had stopped at the Perkins farm, just above this village on the Cooperstown road, to pick up the mail and was well out of the road when an automobile approached from Cooperstown just as William Hoose arrived from Milford with the school bus from Clintonville. The driver of the car attempted to drive between the two rigs with the result that he crashed into the Salisbury sleigh, badly demolishing it. Fortunately no one was hurt and the driver of the car brought Mr. Salisbury to this village and it is understood settled for all damages. The deep snow, which caused the car to swerve in the road, was the cause of the accident.

Lincoln Day Social.

A Lincoln day social was held at the Presbyterian chapel Friday evening last and was well attended. The evening was spent at various amusements and light refreshments were served. The evening was one of much enjoyment.

Presbyterian Church to Serve Supper.

The Ladies' Aid society of the Presbyterian church will serve a supper in the chapel on Friday evening of this week, commencing at 6 o'clock. An excellent menu will be served.

Brought Here for Burial.

The remains of Mrs. Mary Perry, who died last Monday at her home at Central Bridge, were brought here for burial last Thursday in the German lot in Milford cemetery.

Missionary Meeting.

The Ladies' Home and Foreign Missionary society of the Presbyterian church met at the home of Mrs. Eugene Crawford on South Main street last Tuesday. Following the business session, a play, "A Dream with a Mission," was given and was greatly enjoyed.

Crushed Finger in Door

Miss Thelma Hall, daughter of Mr. and Mrs. Claude Hall, had the misfortune to catch the index finger on her left hand in a door as she was closing it at her home last Thursday morning, crushing the end of the finger and fracturing the bone in two places. Dr. L. W. Green was called to dress the wound.

Potatoes Forty Cents.

Potatoes reached the lowest price of the season at the depot market here last week, only 40 cents per bushel being paid.

PUT FIGHTING QUALITIES IN YOUR BLOOD

If You Are Pale and Weak, Without Ambition, You Need a Tonic

TRY TAKING PEPTO-MANGAN

Rich, Red Blood Fights Off Disease and Keeps You Well and Enables You to Work With Pleasure

Serious sickness often comes when you least suspect. You may feel a little overtired. You haven't been exposed to contagion, yet all of a sudden you are flat on your back and in for a siege of sickness.

Your blood did not have fighting qualities. It was weak and thin. Your vitality and powers of resistance were low.

When you overgo you use up energy. Your blood is driven to do more than it can. It becomes clogged with waste. The waste acts like poison. Disease germs get in your blood and dominate.

Don't let yourself get run down. Take that good tonic, Pepto-Mangan. It makes rich, red blood that will resist and rout the disease germs.

Pepto-Mangan is widely and heartily endorsed by physicians. It is effective and easy to take. Comes in either liquid or tablet form. Both have the same effect.

Sold at any drug store. But be sure you get the genuine Pepto-Mangan — "Gude's." Ask for it by the name and be sure the full name, "Gude's Pepto-Mangan," is on the package.

HAPPENINGS IN HARTWICK

Mrs. VanSlyke Undergoes Operation at Parshall Hospital in Oneonta.

Hartwick, Feb. 14.—Mrs. David VanSlyke, a well-known resident of this village, was taken last Thursday to the Parshall hospital in Oneonta, where she underwent an operation for gall stones. Dr. Schoolcraft was the attending physician and the operation was performed by Dr. Latcher. The operation was successful and the patient is doing well.

Mrs. Vibbard Suffers Shock.

Mrs. Walton Vibbard of this village suffered a shock a few days ago, the most recent of a long series which she has suffered during the past few years, and is in a very critical condition at her home on Main street.

Junior Propectors Elect.

The Junior Project classes in sewing have been organized and hereafter will hold regular meetings at the school building Wednesday afternoons of each week. At the last meeting, Mabel Talbot was elected president, Jeanette Fuller vice president, and Iva Warman secretary. Mrs. Clark Beach is the local leader and Mrs. Elmer Talbot, Mrs. Charles Halcott, Mrs. H. L. Farrington and Mrs. T. P. Lewis are her assistants. The classes now number 30 members.

E. M. B. A. Boys Win at Hartwick.

Hartwick, Feb. 14.—A large crowd witnessed the fine game of basketball put on at E. M. B. A. hall Friday evening. The opposing forces were the Hartwick High school and the E. M. B. A. town team. Although the final score was 19 to 13 in favor of the town team, the High school boys put up a good fight and kept their opponents on the move every minute. Lynn Sill refereed the game to the satisfaction of both players and spectators. It is expected that these two teams will battle again for supremacy in the near future.

JOHN BISHOP PASSES AWAY.

Long-Time Wells Bridge Resident Laid to Rest Saturday.

Wells Bridge, Feb. 14.—John Bishop, who had he lived until next month, would have been 84 years of age, died last Thursday morning at his home with his daughters in this village. He had been in failing health for some time past, owing to the infirmities of age, and his death was not unexpected. The funeral was held from the Wells Bridge Methodist church Saturday afternoon, with Rev. H. L. Snyder officiating. Burial in the Sand Hill cemetery.

Mr. Bishop is survived by two daughters, Misses Julia and Anna Bishop, and one sister, Mrs. J. W. Shaw, all of this village. He was for years one of the most respected and successful farmers residing in this place and had many friends who will regret to learn of his death. He was one of a family of nine children, the only surviving member of which now is Mrs. Shaw.

Social and Bake Sale.

Remember the social to be held at Sisson's hall on Friday evening of this week.

The Ladies Aid society of the Methodist church will held a bake sale Saturday at William Sisson's store, commencing at 10 a. m. The patronage of the public is solicited.

Attends funeral in Oneonta.

Miss Jennie Carr attended the funeral of her cousin, the late Benjamin B. Davis, held in Oneonta on Saturday. Mr. Davis was well known in this vicinity, his mother, who was Miss Rhoda Carr, having been a native of Sand Hill, where she spent her early life.

Local Notes.

Miss Daisy Eggleston closed her series of evangelistic meetings at the Methodist Episcopal church on Sunday evening.——Mrs. Frank Fowler, who has been in poor health for some time, now is a patient at a hospital in Amsterdam. Last reports were to the effect that she was somewhat improved.

MATTERS IN MIDDLEFIELD.

Reorganize Fellowship Class Last Sunday.

Middlefield, Feb. 14. — On Sunday morning at the Methodist church the gentlemen of the Fellowship class reorganized their class and the following officers were elected; President, J. Stacy Wilson; secretary, John W. Cloxton; treasurer, Burdett C. Brown; teacher, Rev. J. G. Rice; assistant teacher, John W. Cloxton.

Annual Trustee Meeting.

The annual trustee meeting of the Methodist Episcopal church will be held in the Sabbath school room on Monday afternoon, Feb. 21, at 2 o'clock.

Social a Success.

Friday evening, Feb. 11, the social held at the home of Mr. and Mrs. B. C. Brown, two miles above the village, was attended by over 70 people and the proceeds amounted to $12.80. All reported a very pleasant evening and it was decided to hold the next social at the church on Friday evening, March 4. Come and enjoy the evening.

DONATION AT COLLIERS.

Benefit for Pastor of Local Church Next Friday Evening.

Colliers, Feb. 14. — The annual donation and supper for the benefit of the Methodist Episcopal church will be held at the church room here Friday evening, Feb. 18. A general invitation is extended. Supper will be served at 6 o'clock. Please bring refreshments.

Sleigh Ride and Entertainment.

The Sunday school classes of Mrs. Merton Stillwell and P. R. Southworth went on a sleigh ride and were entertained at the home of Mr. and Mrs. John Smith on Dutch hill last Friday evening. A fine supper was served which all keenly enjoyed. They all agreed that Mr. and Mrs. Smith are royal entertainers, and that they had spent a most enjoyable evening.

Entertained at West Davenport.

Mr. and Mrs. William Stevenson entertained relatives from West Davenport Sunday.

SICK HEADACHES FOR YEARS

Nothing Gave Relief Until He Tried "Fruit-a-tives"

160 CAROLINE AVE., OGDENSBURG, N.Y.

"I suffered for four years with *Nervous Sick Headache and Dyspepsia*. Tried doctors—ate bran gems—took all kinds of remedies—but nothing did me any good until I used 'Fruit-a-tives' or Fruit Liver Tablets.

They made me well and keep me well; and I am always glad to tell people of the great things "Fruit-a-tives" have done for me.

I have many friends in Ogdensburg now using 'Fruit-a-tives' on my recommendation". C. E. BESWICK.

50c. a box, 6 for $2.50, trial size 25c. At dealers or from FRUIT-A-TIVES Limited, OGDENSBURG, N. Y.

HIRAM RICH DEAD.

Well Known in Schenevus—Expires Friday in Syracuse.

Schenevus, Feb. 14. — News has been received here of the death of Hiram Rich, which occurred suddenly at Syracuse Friday. Mr. Rich was well and favorably known here, having married Mrs. Rose Bliven of this village about a year ago and has spent considerable time here since. Mr. Rich is survived by his wife, also a daughter and three sons by a previous marriage. The funeral and interment will take place in Syracuse. Mrs. Rich will receive the sympathy of many friends here.

New Clerk in Bank.

J. Carey Wickham commenced his duties as clerk in the Schenevus bank Monday morning.

Visiting at Home.

Anthony Pedrone of the Wilber National bank, Oneonta, spent the week-end at his home here.

PRETTY CHURCH WEDDING.

Popular Maryland Couple Married in M. E. Church at Schenevus.

Schenevus, Feb. 14. — At the close of the morning services yesterday there took place in the M. E. church the marriage of Arnold W. Wieser jr. to Miss Emma U. Gallusser. The ceremony was performed by the pastor, Rev. F. W. Connell, the double ring service being used. The bride was dressed in Harding blue satin with picture hat to match. The couple was attended by Mr. and Mrs. Theophil Meyer. Relatives only were present.

Mr. and Mrs. Wieser are well known and popular young people of Maryland, where they will live.

MILFORD CENTER.

Milford Center, Feb. 14.—Mr. and Mrs. B. L. Squire and son, Clyde, spent Friday in Oneonta.—Mr. and Mrs. H. J. Ferguson left Monday morning for Ithaca to attend Farmers' Week.—Mr. and Mrs. Harold Smith of Oneonta were callers at C. S. Morris' Sunday.—Mrs. Daniel Smith is gaining slowly. — I. Reed Davidson spent several days last week in Otego. — Mrs. W. G. Wright, who is the delegate from Otsego County Home bureau to the Home bureau conference at Ithaca, left Monday morning for that city, where she will spend the week.—Homer Preston, who has been spending some time in Ilion, returned home last Saturday.—Ralph Bishop of Oneonta spent the week-end with his friend, Prof. George D. Gregory.—Miss Florence Hill of Elmira is visiting her sister, Mrs. Floyd Bates.—Mrs. John Lohr is ill with an attack of tonsilitis.

To Relieve Catarrh, Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmint (Double Strength). Take this home mint (Double Strength). Take this home and add to it ¼ pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Parmint is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective.

Every person who has catarrh in any form or distressing rumbling, hissing sounds in their ears, should give this recipe a trial.

MEETINGS AT EAST MEREDITH.

Home Bureau, Missionary Societies and Tta-Em-Crow This Week.

East Meredith, Feb. 14.—Mrs. H. Bucknam, home demonstrator for the Home bureau, will have an all day meeting in the parsonage Friday, February 18, of this week. All ladies are invited to come and bring their lunch. Coffee will be furnished for all.

The annual meeting of the Missionary society will be held at the home of Mrs. J. I. Roberts Thursday of this week. It will be an all day meeting. Mrs. Roberts invites the members for lunch at noon.

Tat-Em-Crow will be entertained by Mrs. Frank Palmer Wednesday evening of this week.

East Meredith Personals.

Mr. and Mrs. Philip Morey of Worcester were guests Friday of their son-in-law and daughter, Mr. and Mrs. W. D. Beardsley.—Mrs. G. R. Henderson and infant daughter are spending a few days in Oneonta.—Mr. and Mrs. Allen Craig moved to East Worcester last week, where he has charge of a church. Mrs. Dibble accompanied them.—Mr. and Mrs. M. J. Tobey and Mr. and Mrs. M. N. Tobey were in Morris last week to attend the funeral of Mr. Tobey's uncle, Mr. Colburn.—Friends of Charles Haynes will be pleased to hear he has recovered from his illness and is again in school.—Eugene Moon is in very poor health.—Miss Maude Roberts spent a few days last week in Oneonta, the guest of her aunt, Mrs. G. Moore.

DAVENPORT CENTER SOCIAL.

Hat Party Thursday Evening at Methodist Episcopal Church.

Davenport Center, Feb. 14.—A hat social will be held at the M. E. church parlors Thursday evening of this week. Each lady is requested to bring a hat. Proceeds of social to be used to buy new hymnals for church. All come and have a pleasant evening.

Brevities.

Mrs. Thomas Mahoney entertained a number of friends Friday evening. Dancing was enjoyed by all present.—Quite a number from this place attended to play at Davenport Friday evening.—Miss Jennie Dayton, who has been spending some time at Binghamton returned home last Thursday.—Ethel Henderson has gone to Albany to attend a school for nurses. — Mr. and Mrs. James Henderson are spending some time with their son, Robert. — Mrs. Lillian Olmstead spent the week-end in Davenport. — Mr. and Mrs. Richard Porter of Ferguson's Hill were guests Sunday of Mr. and Mrs. H. D. Dayton.—Many friends at this place were saddened to hear of the sudden death of Curtis Olmstead at Davenport Saturday.

HOBART HAPPENINGS.

Hobart, Feb. 14.—Mrs. William Stryker of New York is visiting her daughter, Mrs. Fred Foote, at Maple Bank.—Mrs. Frank Lamport and son are spending a few days in Stamford with her sister, Mrs. A. G. Hume.—Mr. W. S. Dart of Oneonta was a professional caller in town today.—At a recent meeting of the directors of the National bank of Hobart, it was voted to purchase of J. Laurence the building now used as a bank. It is not contemplated that any very extensive changes will be made in the building at the present time. — The Woman's Missionary society of the Presbyterian church will meet on Friday at 3 p. m. at the home of Mrs. J. A. Cowan.—Mr. and Mrs. Hector Cowan jr. spent the week-end with relatives in Syracuse. While there Mr. Cowan attended the A. E. F. reunion. — The second degree will be conferred upon a class of five candidates at St. Andrews' lodge on Wednesday evening.—The Annie T. O'Connor class will meet with Mrs. F. M. Lyon, Wednesday afternoon at 2:30 o'clock. — Prof. Allen is confined to his home with a severe attack of grip.—M. K. Mayes was a business caller in Arkville today.—R. W. Hume of Oneonta is spending the week-end in Hobart.—S. W. Rich is confined to his home by illness.

WILLIAM COLLIER in "The Servant Question"
Directed by Dell Henderson

No comedian of the past score of years is so well known to the amusement-seeking public as William Collier, he having appeared in various comedy roles in practically every city and town in this country.

• • •

In "The Servant Question" the star has every desired opportunity for displaying his singularly fine talent for fun-making and in true Collierian style he makes the most of every opportunity afforded.

Constipation Causes Serious Ills

If you are its victim, try strengthening your digestive and eliminative organs with Nature's Remedy—it's better than laxatives.

NR Today—Keeps the Doctor Away

One of the world's greatest scientists says that more than 80% of all human ills can be traced directly or indirectly to constipation. How many sufferers realize this?

Most of them continually dose themselves with so-called laxative pills, calomel, oil, purges and cathartics and force bowel action. To do that is a mistake. It weakens the bowels and liver and makes constant dosing necessary.

Why don't you begin right today to overcome your constipation and get your system in such shape that constant drugging will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so.

NR Tablets do much more than merely cause pleasant, easy bowel action. This medicine acts upon the digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out.

And NR does this without a trace of griping, pain or unpleasantness. It works gently, but promptly and thoroughly. In a few days you notice the real result. You begin to feel that you are living again, with new strength, new energy, vim and pep and ginger. You soon find your bowels acting regularly without help. Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

THE BUSINESS SITUATION.

Improvement in the business situation as a whole continues slowly, but more or less steadily, says a recent bulletin of the Guaranty Trust company of New York. While the textile industries of New England are resuming operations, and farm products are moving more quickly, there are evidences of slackening activity in the steel and iron centers, and idle railroad rolling stock is increasing. Wholesale dealers and jobbers complain that while their prices have been reduced to costs, retailers continue to place orders on the day to day basis. The retailers declare that their prices are at rock bottom, and that offers of big reductions from the sale prices of a few months ago obtain no response from the ultimate consumer, who expects prices which would represent too big a loss to the stores, despite the apparent opportunity to replace at lower levels.

The consumer, on the other hand has failed to be convinced by the fact that the price drop in this country is the most precipitate on record, and that he should not wait for a greater fall, if each element in the country is to do its share toward the maintenance of an orderly, conservative and safe readjustment. This attitude is due in part, of course, to the consumer's loss in buying power resulting from reduced wages, part time work, and unemployment. The effect is seen in the decrease in railroad traffic, in the diminished bank clearings, in the falling off of mail orders, in the effort which producers are making to contract their cost expenditures. This last involves further wage reductions and a whole train of attendant circumstances.

Holding the controlling lever and giving promise of approaching stability, however, are those factors in the situation which lie on the constructive side of the problem. Arrangements are being made to dispose of a large part of the country's copper surplus through private financing. The War Finance corporation has made a survey of the markets and this country's ability to supply them. The Foreign Trade Financing corporation is being organized to furnish credits to cover exportation of American products. There is a disposition on the part of industrial enterprises to avoid complete disintegration of their working forces or scrapping of their plants. In a dozen directions efforts are being made to extend business or at least to hold fast. Many look to see the traditional dullness of February give way to an Easter revival of old-time proportions. It is a period where constructive planning and optimism as to the future prevail over the mere surface conditions. Hence the perceptible feeling everywhere that the trend inclines toward improvement.

WARNING FROM COLLECTOR.

Taxpayers Should Not Omit Profits on Sales of Capital Assets.

Numerous inquiries have reached the Bureau of Internal Revenue relative to the decision of the United Stats district court of Connecticut in the Brewster case, in which it was held that gains and profits realized from the sale of capital assets is not taxable income. The United States attorney for Connecticut has been authorized to perfect an appeal to the supreme court of the United States for a review of the decision. Since congress, under the provisions of the income tax acts of 1913, 1916 and 1918, has directed the taxation as income of such gains and profits, the bureau will continue to collect the tax thereon, unless and until the supreme court shall hold that provision of law to be unconstitutional.

The same question is involved in the Eldorado and Ryerson cases, which were argued in the supreme court some weeks ago. A decision in these cases undoubtedly will settle the general question. In view of the severe penalties provided by law for false and fraudulent income tax return, taxpayers are warned not to omit from their returns for the year 1920 such gains and profits.

John Hagan,
Deputy Collector.
Syracuse, N. Y., Feb. 14, 1921.

VALENTINE FAD PASSING.

Many Girls Waited in Vain for the Tender Message in Lace Paper.

Yesterday was St. Valentine's day, but from indications of a casual survey at the post office there were a large number of "best girls" who waited in vain for the annual "heart message" from their "steady."

The valentine fad is apparently going the way of all things not materialistic and the days when few attempted to refrain from acting the kid, is fast passing. One could not detect any unusual rush of business at the post office and those in charge stated that while there was more mail, a considerable part of which was valentines, the additional burden was nothing like that of former years.

It would seem as though Johnny has ceased kidding teacher, the office bore and pest is escaping his annual message of ridicule, and the girls and fellows no longer search the shops for creations of lace and silver or those folding "miracles" to send to each other. It may be that articles more substantial are replacing the valentine, such as candy and flowers, or it may be that "Speak for yourself, John," is becoming the custom.

Nestle's Plant Resumes.

The plant of the Nestle Milk company at Unadilla has resumed operations with 40 men at work. The amount of milk being received could not be learned.

COMMENTS OF THE PRESS

Is a Big Asset.

The story comes from Washington that Mrs. Harding, while staying at a hotel, was greeted by the wives of three senators and that when these ladies came to her table in the dining room, Mrs. Harding rose. The ladies remonstrated, telling Mrs. Harding that she did not have to rise for a senator's wife any longer, but the wife of the president-elect replied: "As long as I have two feet I will always rise for a senator's wife. I never felt so proud in my life as when my husband was elected United States senator." If the story is true, Mrs. Harding is going to be a big asset to her husband in the White House.—[Cortland Standard.

Boy of Eighteen Gets Action.

Midshipman J. L. Storey, a boy of perhaps eighteen, the sole surviving officer of the Queen Mary, reported to his C. O. on the loss of his ship!

That midshipman, by the way, bore a charmed life. At Jutland he was picked up unconscious after sinking twice. He was with Cradock at the battle of Coronel, escaping in the Glasgow after the flagship and the Monmouth had been sunk with not a man saved; with Sturdee in the battle of the Falklands, and in many engagements in the Dardanelles. And, after all, she was the sole surviving officer of one of our larkest ships.—[London Saturday Review.

A Dangerous Place to Carry Real Money.

The 200 Russians who are sailing home from Boston with savings of nearly $750,000 among them expect to be able to live at ease on their money when they get back to the land of the midnight Red.

At the present rate of exchange—when there is any exchange—their gold and United States gold certificates will make them people of wealth in Russia. Only, it so happens that there are no people of wealth over there today.

It would have been bad enough if Lenine had tried to set the ruined economic system of the country on its feet. But, when he tried to stand it on its head, he naturally shook out what little ready money the system still contained.

These thrifty war workers from America had better check their purses before they go in. If they don't thieves are likely to get most of it, and the government will get the rest. —[Binghamton Press.

Discouraging Criminals.

For his firmness in imposing an aggregate of 205 years upon 20 burglars and bandits in the Bronx county court, Judge Louis D. Gibbs deserves the gratitude of the community. "I intend to instil the fear of God into the minds of criminals," he declared, "by showing them how severe the law is when they are proved guilty." This is a resolute spirit. Perhaps it will do something to convince hundreds of weak young men now hesitating on the brink of criminal careers that honesty is the best policy.—[New York Sun.

Automatic.

"Do they have any trouble enforcing prohibition out your way?"

"None whatever," replied Uncle Bill Bottletop. "The bootleggers have jes' naturally forsook the settlement because nobody had any money left." —[Washington Star.

A Dominant Policy.

"I can't quite decide whether our distinguished colleague is for protection or free trade."

"He is still sounding out his constituency," replied Senator Sorghum. "The only policy on which is absolutely consistent is self-preservation."—[Washington Star.

His Next Promotion.

If Judge Landis runs the baseball leagues successfully he may expect a call from Geneva.—[Charleston News-Courier.

Identification Necessary.

When you talk about "the sick man of Europe" nowadays it is necessary to give the first and last names. —[Minneapolis Tribune.

Passing the Buck.

"Excuse me," remarked the polite bandits who is up with the times. "I hate to rob you, but the rent-gougers drive me to it. They put me out if I don't pay."—[Chicago News.

A Word for Mellon.

There is this to be said of Mellon: If there is a deficit of a billion or two in the treasury department he can pay it himself.—[Syracuse Post-Standard.

THE ROAD TO HAPPINESS.

A Splendid Production Introduces Manhattan Company.

Yesterday a new stock company to local theatregoers, the Manhattan Players, opened a week's engagement at the Oneonta theatre and if the remainder of their plays at all compare with their initial offering their success here is a foregone conclusion. "The Road to Happiness," formerly used as a vehicle for William T. Hodge, is a pleasing comedy of rural life which besides being really interesting throughout has the additional and all too seldom quality of absolute freedom from the present day tendency to be spicy. The play itself never rises to great heights dramatically but the interest is sustained through a story of love and romance with an ever-flowing stream of wholesome comedy. Among the players Dick Ward stood out prominently by his admirable interpretation of Mr. Hedge's role. His delineation of the village tinker who eventually rises to the exalted position of the lawyer was delightful. Mr. Ward's personality dominated things at all times when he was on the stage. Leonard Rowe as a scheming, hypocritical man of affairs, was an excellent foil for Mr. Ward. Messrs. Weiss, MacKaye, Roberts and Hills did particularly well. Unfortunately the ladies of the company had little to do but it is evident that each is abundantly able to handle important parts as they are brought to them by the author. The scenery is far above the average and gave a tone to the whole performance that raised it far above the average popular price level. A visit to the Oneonta theatre any afternoon or night this week is reasonably certain to bring more than ordinary enjoyment to the seasoned playgoer or to the man or woman who seldom attends stock productions.

TODAY'S BEAUTY TALK

Beautiful hair, thick and lustrous, is easily yours if you use Parisian Sage! a positive remedy for dandruff, excess oil and itching scalp. George S. Slade sells it with money back guarantee.

[National Crop Improvement Service.]

IT IS now an established fact that more sweet clover is needed on American farms, but the trouble has always been that in order to make a money crop out of sweet clover, it was necessary to cut the stalks in order to harvest the seed at the sacrifice of the green manure which is so valuable in soil building.

A Springfield, Illinois, farmer, Mr. G. P. Luedke, wishing to keep the stalks of sweet clover on the land and at the same time save the seed, has invented a very clever device for harvesting and threshing the sweet clover seed in one operation. He says that the first machine that he built paid for itself in four days.

The machine stands up high enough to bend over the tops of the sweet clover plant, stripping them of all seeds which are threshed and sacked on the machine. It is propelled by four horses back of the machine and is said to be not expensive.

Scientists from the University of Illinois have watched the operation of this outfit and pronounce it to be just the thing the sweet clover farmer needs. The first crop can be cut for forage the same as alfalfa and the seed crop allowed to come on later.

Sweet clover has a long fleshy taproot with nitrogen gathering nodules which make it one of the most valuable legumes. The old method of saving seed was to cut the sweet clover with a mower or grain binder and thresh the seed, but the new invention permits the grower to make a double profit. In other words, he can "Eat His Cake and Keep It."

OFFICE BOY GOING BACK TO SCHOOL

Falling Wages in Industrial and Commercial World the Reason

Chicago, Feb. 14. — The office boy is going back to school. Fourteen, fifteen and sixteen-year-old girl stenographers are re-entering High school. Falling wages in the industrial and commercial world are sending boys and girls thousands on thousands of them, into the classrooms they left when war-elevated salaries lured them away.

Increase in school membership in the United States during 1920-21 is approximately 1,500,000 over 1919-20, according to a survey just completed here by the Better Schools service, a bureau of the American Federation of Teachers. In the large cities the survey shows the increase has averaged 10 per cent, although the figure for the whole nation is nearer 7.5 per cent, owing to the decline in efficiency of the rural school. The resumption of immigration is responsible for a large part of this increase, the report shows, New York and Chicago having been forced to set up extra quarters called "steamer rooms" for the newly arrived foreign children.

"Estimates show that the 20,000,000 figure for the present school membership of the nation must be increased by 1,500,000 at least," said William T. McCoy, chairman of the Better Schools service. He continued:

"Immigrants send their children to school as quick as they land. They show more avidity for education than did their predecessors in the years before the war. But the greatest rush is among the boys and girls who quit school to take advantage of high wages in industry. Now the war inflation is gone and these young people are swarming back into High school to fit themselves for work other than manual labor.

"A greater proportion of children from the homes of skilled and manual laborers are seeking higher education than ever before, due to the fact that both parents and children often worked at high wages during the war period with the idea of spending accumulated money in further schooling for the children. This is shown in the fact that the heaviest proportional gain has been in High schools where this age is represented.

"The greatest rush of attendance has taxed the already over-crowded schools to the limit. In large cities and in mining and industrial centers schools are over-pupiled and under-teachered to the point where the work done is utterly unfair to the children. The increase in attendance has come at a time when the number of teachers is decreasing and when the building of schools has stopped. Authorities agree that the best work can be done in school when there is one teacher for every 25 pupils and yet the average for the 15 largest American cities is over 36 pupils per teacher, Philadelphia having 46, Chicago 44, St. Louis and Milwaukee 40, New York 39, Los Angeles 37, Newark 36, Baltimore 36 and Detroit 35. These averages will grow much higher for the increase in numbers of pupils cannot be matched by buildings now proposed."

WAGE REDUCTION SUSPENDED

Federal Board Takes Action on Erie Railroad's Change in Pay to Maintenance of Way Employes.

A dispatch from Chicago says: Recent reductions in the wages of maintenance of way men and changes in the working conditions of train dispatchers as announced by the Erie railroad, were suspended today by the federal railroad labor board pending a hearing.

The board announced that no wage reductions or changes in working conditions could become effective except by agreements between the road and its employes until the board had an opportunity to pass upon the case. The hearing was set for February 23.

The case was presented ten days ago by representatives of the employes. The petition alleged that the road had reduced the basic wage of track workers to 30 cents an hour, the previous rates having been 37 to 48 1-2 cents an hour.

Train dispatchers representatives charged that the road had ordered them to work seven days a week. Previously they had a six-day week.

Sell Your Unused Articles.

OLD SHIRTS LIVE LONGER.

A Blouse for Small Brother or Apron for Mother Among Possibilities.

Sometimes father's shirt wears out around the collar band or cuffs or gets a bad tear in the sleeve; if it is not badly worn in other places it has a long road to travel before it should be relegated to the rag bag, say the home economics workers at the State College of Agriculture, who suggest various ways of making over father's shirt.

The cuffs, the yoke pieces and other worn parts of course must be discarded. Since the buttonholes are already made, the fronts and back are easily cut down to make the fronts and back of a blouse for brother. If the sleeves are not worn above the placket, long sleeves may be cut from them, but if there is not sufficient good material for long sleeves, short ones and a roll collar may be substituted and a sport blouse made. Collar and cuffs can be cut from the back piece.

Apron for Child.

To make an apron for a small child the fronts are reversed and the garment planned to open down the back so that the buttons and buttonholes may be utilized. A small yoke may be made from the bottom of the front and back pieces; the sleeves of the shirt will make the sleeves and the cuffs for the apron. A lengthwise strip from the back piece makes the belt or the belt may be omitted.

A belt apron, with or without a bib and pockets, may be made from a partly worn shirt. Ric-rac or stitched braid may be used to trim the edges.

If it happens that a shirt of pongee or silk shirting is to be remodelled, a good-looking blouse with a roll collar, cuffs and tie of the same material, or or contrasting material, may be made.

If of good quality in the beginning, and a medium price, ready-made shirts may well be remodelled. Because the colors are fast and the patterns small and attractive, they are especially adapted to boys' blouses and children's aprons.

Father McCaffrey at Ballston Spa.

The Rev. Charles McCaffrey, formerly of Oneonta, observed the first anniversary of his assumption of the pastorate of St. Mary's church, Ballston Spa., Sunday. In his sermon he thanked his parishioners for their loyalty and cooperation. Father McCaffrey succeeded the Rev. William H. Walsh, now pastor of St. Peter's, Troy.

The former Oneonta clergyman has raised $4,000 toward a memorial altar in memory of the Rev. Bernard J. McDonough, for 30 years the pastor of the Ballston church.

Oiling Streets.

Take Notice: Petitions for oiling streets during 1921 should be presented to the Board of Public Works on or before March 7, 1921. Frank M. Gurney, city engineer. 4t

Some luxuries come high. But Otsego coffee is a genuine luxury which all can afford. Serving it three times a day means full enjoyment of every meal. 1w

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, cleaning the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect.

MUSICIAN OUT OF TUNE

"Gas pressure in my stomach sometimes distressed me so that I could not think. I played out of tune and twice lost my position. No medicine helped me and I became disheartened. Another musician advised me to try Warner's Wonderful Remedy, and I am now enjoying the best of health. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dollar will convince or money refunded."

Enjoyable Valentine Party.

An informal valentine party was given at the First Methodist church last evening by the members of Mrs. Walker's Sunday school class. A sketch of morning chapel at the State Normal school was presented by the young ladies and afforded much amusement to the audience and players alike. The serving of light refreshments brought to a close an evening full of much enjoyment for the young ladies.

P. S. Come to Sunday school next Sunday.

Day of Prayer for Missions.

Friday of this week will be observed as the annual day of prayer for missions by the Women's Missionary societies of the city. A meeting for this purpose will be held Friday at 3 p. m. in the prayer room of the First Baptist church to which all members of the missionary societies are invited. An interesting meeting has been arranged.

LOCAL MENTION.

Discoveries.

When single, John was of the throng
At tennis, golf and polo;
But wed, he found that love's sweet song
Was a soprano solo.

—The sleighride planned for Wednesday night by the Queen Esther society of the First Methodist church has been postponed indefinitely.

—Martin & Maynard of the Cooperstown-Oneonta bus line, after going over the route once between the two places with the new snow plow provided by the Oneonta Auto club, accidentally lost two parts of the plow. It is believed within the city limits, preventing plowing out the other side of the highway. The lost parts are advertised elsewhere in this issue and it is hoped that the finder will return them at once to Brannaman's garage.

Members' Forum Tonight.

Attention is again called to the first of the civic forum meetings of the Chamber of Commerce, which will be held in Municipal hall this evening, commencing at 7:30 o'clock. Dr. George J. Dann will preside and ways and means of relieving the housing shortage in Oneonta will be discussed. This question is a vital one to the city and it is hoped that there will be a large attendance of members of the Chamber of Commerce to talk over the situation and the prospects of relieving it.

Fine Night for Coasting.

Last night was ideal for coasting, and a large number of young people availed themselves of the fine condition of the Elm street course, which was again under the supervision of the Boosters' club. The road was in a much better condition than on Saturday night, being well packed down and frozen by the colder temperature. Several more bobs were out last night than on Saturday, and the young folks exhibited much orderly jollity.

Meetings Today.

Stated meeting of Martha chapter, No. 116, O. E. S., at 7:30. Work, floral degree. Refreshments will be served at close of meeting.

Regular meeting of Daughters of Isabella, in B. of R. T. hall, this evening.

The Woman's Missionary society of the Main Street Baptist church will meet with Mrs. I. J. Bookhout, 37 Walnut street, this afternoon, at 3 o'clock.

Regular meeting of Centennial lodge, No. 447, I. O. O. F., tonight, at 7:30.

A Stitch in Time Tonight.

At the First Methodist Episcopal church. This missionary drama is well worth hearing and you will be sorry tomorrow if you do not attend. No tickets are being sold but the young people are expecting a generous offering for their work.

Wednesday Services at St. James'.

On Wednesday of this week there will be a holy communion at 8 a. m. at St. James' church and at 7:30 p. m. evening prayer with sermon by Rev. E. E. Burhans, rector of Christ church at Hamilton.

Meeting Postponed.

On account of the inspection tonight at the armory the rehearsal of Company G band is postponed until Thursday evening.

An Eye Opener.

People who read the good things that the Saturday Evening Post of February 12th, in an editorial said about me and others like me, ought to wake up and be thankful for the unselfish work that I am doing for Oneonta. Little fellows ought to realize that money won't buy an editorial in the Saturday Evening Post, a periodical that commends only the good, and therefore understand how I am giving them a fair chance and a square deal and am playing the live and let live game. It ought to convince them that my grand and unselfish work for the good, more than makes up for the bad in the underworld; thus making for a larger and better Oneonta. I'm the safe and sane Oneonta Building and Loan association. 1t

Repair Work That Satisfies.

A makeshift repair is one thing and work that is permanently satisfactory is quite another.

We do the kind of repair work that gives permanent satisfaction. We have high grade material and equipment with which to back up this claim.

By letting us do all your repair work and jobbing you will get the kind of service that satisfies with charges as reasonable as they could possibly be. I. D. Butts & Son. Phone 932-J. Plumbing and heating. 2t

Sleighs for Immediate Delivery.

One set surrey body pleasure spring bobs, a beautiful outfit cheap. One set grocer's delivery bobs, seat and toe board. Two sets light bobs. Gears to go under platform wagon bodies. Two sets farm and lumber bobs. One mortice or bench knees. One fine Portland cutter. One square piano box cutter. Heavy cast bob shoes, robes, blankets men's heavy coats, ladies' fur and cloth coats, children's fur coats, $9.85 to close. The place, Arthur M. Butts, 232-234 Main street, Oneonta, N. Y. 3t

Desirable Property For Sale.

City property for sale, one of the best locations and paying propositions in the city. Ideal for family rooming or boarding houses, professional work, hospitals, club room, hotels, stores, garage or manufacturing purposes. Lot, 132 feet on Dietz street, 225 feet on line with Huntington park. Moderate price. Easy terms. Investigate. Dr. J. P. Elliott, 29 to 35 Dietz street, Oneonta, N. Y. 2w

Vacant Lot Near Lower Chestnut St.

Owner not now employed, says he will sell his vacant lot at West End for the same price he paid several years ago, now surrounded by houses and with city water in street. Size 50 x96, extending through from James to Tilley street. Has strawberries and blackberries set out. New path to railroad round house in three minutes. $300. H. M. Bard & Son, 8 Broad street. 3t

SUBSTITUTE BILL PROPOSED

MEASURE THAT WOULD REIMBURSE FARMER FOR DAMAGES SUSTAINED.

Urged as Compromise Measure for Betts Written Consent Bill—Sportsmen Believe We Should Not Destroy Love for Outdoor Sports.

Some emphasis was laid upon the fact, which the records show, that, with about 9,000 families in the county of Otsego, there are at least one hunter or one fisherman to each family, during the discussion of the Betts bill, now before the state legislature, at the meeting and smoker of the Oneonta Fish, Game and Gun club, held at the Windsor hotel last evening, with about 100 members present. It was also emphasized that the discussion of the bill named has disclosed that there are more depredations committed by reckless and careless sportsmen than was generally believed by the more considerate ones, and also that more benefits accrue to the farmers and landowners by reason of the clubs and the visits of the hunters to the woods and the fishermen to the streams than is fully appreciated by the farm inhabitants.

Will Confer with Grangers.

During the course of his report of the activities of the committee at Albany on the hearing on the Betts bill, which would require sportsmen to secure written consent before entering upon the lands of another, Hon. Geo. L. Bockes of the committee said that the committee would meet with a committee of the Grangers and others supporting the Betts measure at Albany the coming week and attempt to arrange some substitute measure which will protect the farmer as well or better without discouraging the present love of so many Americans for outdoor sports.

Would Reimburse Farmers.

One of the suggestions which seems to meet with general favor and which it is believed should satisfy the supporters of the Betts measure, is that the hunting license fee be increased and that a fishing license fee be imposed and that the proceeds be made available for the purpose of reimbursing the farmers for any damage sustained by reason of the fishermen or hunters, in much the same manner as sheep farmers are now repaid for any damages caused to their flocks from the dog licenses.

To Address Oneonta Grange.

Dr. P. I. Bugbee was named as a committee of one to seek an opportunity to address the Oneonta grange at an early meeting and explain to them the objects and purposes of the club, the desire of the club members to propagate game and develop fishing, thus making country life more attractive, and in other ways co-operate and promote a better feeling between the farmers and the sportsmen who may visit their lands. It is believed that when the local granges understand that the local clubs have the best of intentions and will co-operate with the farm owners to secure redress and to promote country life, that there will be less antagonism to the sportsmen as a class.

Pheasant Eggs to Set.

Suggestion was made that the club can secure additional settings of pheasant eggs and that the club proposes to secure larger plantings of small trout and more pheasants for restocking in this section. It was further suggested that any farmer willing to set some of the pheasant eggs to aid in the good work should communicate with N. A. Platt secretary of the local club and the eggs will be secured if possible.

Stocking Goodyear Lake.

Attention was called to Goodyear lake and the importance of stocking it with fish that will thrive there. It was decided to confer with the conservation commission and employ under its guidance a competent man to make a survey of that body of water and bring about systematic and wisely directed efforts to restock that lake.

Importance of Reforestation.

Kenneth W. Goldthwaite read a very interesting paper showing the importance not only to the landowner and to the fisherman and hunter of reforestation of the upper Susquehanna valley but the importance of the same to every inhabitant of this section. The paper contained many excellent suggestions which would be beneficial if adopted.

FOUND GUILTY OF ASSAULT.

Judge Hathaway Fines Ralph Winans $10 for Striking A. F. Germond.

Ralph E. Winans, a member of the city fire department, was found guilty of assault in the third degree yesterday morning in city court before Acting Judge Lynn W. Hathaway, and was fined $10. It will be recalled that the young man was taken into custody about ten days ago on complaint of A. F. Germond of this city, who said that Winans knocked him down while he was inspecting the damage done by the recent Main street fire. When first brought into court, Winans pleaded not guilty and the trial was set down for yesterday.

Attorney Dennis J. Kilkenny appeared for Germond, while the accused was represented by Hon. George L. Bockes. Several witnesses were examined and there were numerous exchanges between the attorneys, Mr. Kilkenny criticizing the conduct of some members of the fire department, while Mr. Bockes attempted to prove that Germond was at fault in not observing city regulations relative to police lines at fires, and that Winans acted properly in ordering Germond to get outside the ropes.

Winans practically convicted himself of the assault charge, however, as he admitted in open court that he struck Germond, or words to that effect. After hearing the evidence, Judge Hathaway gave it as his opinion that Winans was guilty and fined him $10.

Pianos Tuned.

Mr. Dakin will return to New York last of this week. Those desiring his services must phone him at once. Windsor hotel. 2t

Sleighride Party.

PRESIDENT BECKER

Well Known Attorney New Head of Chamber of Commerce

MARX AND BOOKHOUT HIS AIDS

Charles R. McCarthy, Leslie Gardner and C. C. Miller Succeed Charles Smith, Dr. A. W. Cutler and F. G. Sherman, Who Resign as Directors.

At the first meeting of the newly-chosen directors of the Oneonta Chamber of Commerce held last evening for the purpose of organization, the following officers were elected, all being unanimously chosen:

President—Owen C. Becker.
First vice president—Dr. F. H. Marx.
Second vice president—I. J. Bookhout.
Treasurer—Ralph Henderson.

The new directors manifested a keen interest in the success of the first year's work and if indications may be accepted, they are disposed to make the year one of accomplishments.

Three of the men elected as directors sent letters resigning from the board. Hon. Charles Smith, in his letter, stated he had publicly expressed himself as favoring the election of a new board of younger men and that while he would ever have a keen interest in the success of the organization he wished to be relieved of the duty of a director. Dr. Arthur W. Cutler declared that he appreciated the honor, but owing to inability to give the time which should be given to make an efficient director, he could not consent to serve. Frank G. Sherman, in his letter, stated that his duties at Albany would keep him out of the city for several months and that he felt he could not consistently accept which would be an injustice to the organization.

After a discussion, the following were elected as directors to fill the vacancies caused by these resignations. Charles R. McCarthy, Leslie Gardner and C. C. Miller. These men will serve for one year or until the next election, when the membership will elect. The drawing for terms of service on the board resulted as follows:

One year—F. H. Marx, R. E. Brigham, Frank Huntington, Roscoe C. Briggs.

Two years—C. J. Beams, I. J. Bookhout, M. V. Beckstedt, H. W. Fichrer, H. W. Lee.

Three years—E. W. Elmore, Dr. G. J. Dann, Owen C. Becker.

At the sugestion of Mr. Whalon, representing the American City bureau, the directors then proceeded to elect a chairman of the members' forum, a very important position, as the forum is the members' medium of expressing their wishes as to the action the Chamber shall take. Unanimous was the choice of Herbert C. Getman. He will select the members of his committee and submit them to the board for approval.

President Becker announced that he would select the members of the various committees with the aid of a committee on committees, which he would select and have the committees ready to announce at a meeting to be held not later than early next week.

The selection of the new officers, including the three directors chosen to fill vacancies will, it is confidently believed, meet with the approval of the membership generally. The officers are men with ability and with vision of the possibilities that the city possesses and their administration may confidently be anticipated as productive of much good to the city.

For Sale.

Six room house, all improvements, extra lot and large henhouse, $3,600. Cash, $1,000.

"ANT HILLS" LAWSON'S TOPIC

At Dinner of Men's Club at Methodist Church on Thursday Evening—Tickets May Now Be Secured at 75 Cents Each.

Hon. Joseph Lawson, the famous after-dinner speaker of Albany, who is to be the principal orator at the dinner of the Men's club of the First Methodist church on Thursday evening, has notified the committee that his subject will be "Ant Hills." Those familiar with the Albanian's ability will anticipate something original and clever and they will not be disappointed.

The ladies of the church have promised that the dinner will be worth the price of the tickets, which is 75 cents, so that no disappointment will be experienced in either feature of the evening.

The Elks' Glee club have accepted an invitation to be present and sing and with them leading in the numerous songs that will be sung by the gathering the music will be an added feature.

Tickets may be had by members or others desiring to attend by applying to Fred N. VanWie, Harry C. Bard or Floyd F. Taylor. A limited number remain unsold and as only the capacity of the dining room can be issued, it will be wise for those desiring to attend to secure their tickets at an early hour, today if possible.

FOR SEMINARY ENDOWMENT.

Three Meetings Last Evening Start Movement for Hartwick Seminary.

When the annual meeting of the Lutheran synod of New York was held last fall in Oneonta, a resolution was unanimously passed approving of a movement for the purpose of raising an endowment fund of $200,000 for Hartwick Seminary, the only Lutheran Theological and Classical school in the state. Much enthusiasm was manifested, and committees were named which at the earliest practicable date were to get the drive for the endowment under way. Recently plans were perfected and the work of raising the fund began last evening, when meetings were held simultaneously in New York city, Albany and Syracuse.

The meeting at Albany, in which district Oneonta is located, was held at the First Lutheran church in that city, in which is buried the body of John Christian Hartwick, founder of the seminary, and from whom the town of Hartwick takes its name. Rev. Dr. William Baum of Canajoharie was announced for toastmaster and among the speakers were Rev. Dr. Leitzel of Albany and Dr. A. E. Dietz, acting president of the seminary. The Oneonta church was represented at the meeting and banquet by the pastor, Rev. P. M. Luther, and H. H. Stiles of the church membership. Further report of the meeting will appear in The Star of tomorrow.

Parts of Snow Plow Lost.

Two blocks of metal with four bolt holes through them have been lost from the Baker snow plow attached to the Cooperstown bus. They are of no use to anyone without the plow. They were probably lost about the city streets or on the Cooperstown road and near the city. Will the finder please leave at the Brannaman garage, rear of Oneonta hotel. 1t

"Mother" Song Aids College Fund

RIDA JOHNSON YOUNG

"MOTHER" songs often score heaviest in popularity, but love lyrics are counted upon by writers with the greatest certainty for year-after-year hits, according to Mrs. Rida Johnson Young, author of the "Mother" ballad sensation of this age—"Mother Machree." Expert opinion, this, for "Mother Machree" has sold more than 2,000,000 copies and talking machine records. Mrs. Young's authorship of this famous heart-stirrer was recalled recently when she pledged a month's royalties of the song to the endowment fund being raised for her Alma Mater, Wilson College, at Chambersburg, Pa.

To millions of persons who have though that "Mother Machree" was written by some Irish balladist of a previous century, it will be a surprise to know that it was written ten years ago by an American young woman who a few years prior had come from Wilson College to learn playwriting and songwriting in New York. Mrs. Young has no Irish blood. She merely was writing a play for Chauncey Olcott, and an Irish ballad was needed. "Mother Machree" was the result. That sounds simple, but Mrs. Young built her success surely on her knowledge that in the heart of every real man is a spot that is sacred to his mother, held for her alone. Discover what appeals to the hearts and minds of the mass of people and then work hard on putting it into words or scenes, is Mrs. Young's advice to the many aspiring song-writers and playwrights who have sought her secret of success.

A play which does not please women cannot succeed, she asserts, arguing wisely that the majority of theatre audiences consists of women and girls. Even when men go to the theatre they usually take wives, mothers or sweethearts. And women must not be ridiculed as women. The successful play must suit all ages of women, from the matinee girl to grandmother. Yet the play need not be about women principally, for this writer, who came from a women's college, Wilson College, wrote, as her first big stage hit, "Brown of Harvard."

Paradoxes are fascinating. A woman without Irish ancestry writes the greatest Irish ballad hit. The graduate of a women's college writes a stage success of Harvard. Truly, woman is paradox incarnate.

TWO DEATHS AT FRANKLIN.

Mrs. R. K. Bradley Dies Friday—Edward Tennant on Saturday.

Franklin, Feb. 14.—Polly Comstock, wife of the late Russell K. Bradley, died Friday, February 11, at her home in this village after about one week of critical illness. Mrs. Bradley was born 72 years ago in the town of Davenport, and after her marriage moved to Franklin, where practically all her subsequent life was spent. The funeral services were held Sunday at her late home. Rev. Yale Lyon, of St. Matthew's Protestant Episcopal church of Unadilla officiated, and interment was in the Ouleout Valley cemetery.

Mrs. Bradley was for many years a member of St. Paul's Episcopal church at Franklin. She was also a charter member of the Franklin chapter, Order of Eastern Star, of which her late husband was the first patron. She was a true Christian, a generous friend and neighbor, a loving wife and mother, and a devoted and faithful member of the church with which she was so long associated. Alike in church and community she will be greatly missed.

The deceased is survived by two children, Ira Bradley and Mrs. Hattie Tennant, both of Franklin.

Death of Edward Tennant.

Edward Tennant, a son of the late Mr. and Mrs. George Tennant, died Saturday, February 12, at his late home on Upper Main street in this village. He was 65 years of age and had lived all his life in village and vicinity. Mr. Tennant suffered a shock several years ago and since that time had been unable to engage in any form of labor. He had, however, been confined to the house for a short time only. He was a respected citizen and many friends will grieve to learn of his death.

The funeral will be held Tuesday afternoon at 2 o'clock from his late home. Rev. C. W. Dunckel of the Methodist Episcopal church, of which he was a member, will officiate and burial will be in the Ouleout Valley cemetery.

The surviving members of his family are his wife and one sister, Mrs. Charles Walker, of Franklin. Robert Tennant, formerly of Oneonta, who several years ago moved to California, dying there last fall, was a brother of the deceased.

Card of Thanks.

To our neighbors and friends for their kindness during the illness and following the death of Mr. and Mrs. William Ballentine, we desire to extend our heartfelt thanks.

Mr. and Mrs. Fred Swart.

OBITUARY.

John Bishop.

Wells Bridge, Feb. 14. — The death of John Bishop, one of the oldest residents of this village occurred Thursday morning last. Although he had been in failing health for more than a year, his demise was not expected. The funeral services were held Saturday at 2.30 p. m. at the Methodist Episcopal church in this village, Rev. H. L. Snyder of this place officiating, assisted by Rev. Robert S. Boyce of Wilkes-Barre, Pa.

Mr. Bishop was born March 24, 1837, and was a son of Joseph and Ann Bishop of that place. He was one of a family of ten children, of whom the only one remaining is a sister, Mrs. William Shaw, of Wells Bridge. He was married November 11, 1959, to Miss Sarah Bishop of Morris. The home of the family was for many years on what was earlier known as the Eli Beardsley farm, about one mile north of this village. Mrs. Bishop died in 1893, and for the past twenty years the family, of which the surviving members are the Misses Julia and Anna Bishop, have resided in the village.

Through a long and industrious life Mr. Bishop has won the esteem and confidence of a large circle of acquaintances. He was always loyal and obliging to neighbors and friends and a regular attendant at the Sand Hill church until failing health compelled his retirement. In the last years he has had the constant care of his daughters, who ministered to his wants with unfailing devotion. His was a familiar figure in the community, and he will be greatly missed by all who knew him.

Sister of John L. Bowdish.

John L. Bowdish of this city received a telegram yesterday announcing the death of his sister, Mrs. Jennie Bowdish Wellman, which occurred on Sunday at the home of her daughter, Mrs. W. W. McKinney, at Cherryvale, Kansas. Mrs. Wellman, with her husband, C. S. Wellman, had of late resided in Texas, where about two months ago she became seriously ill of stomach trouble. She was for some time in a Texas hospital, but two weeks ago went to Cherryvale to be with the daughter above named. No further particulars have yet been received.

Mrs. Wellman was the eldest daughter of the late Harvey K. Bowdish of this city and was a native of the town of Hartwick, where she was born March 11, 1854. She was married to Mr. Wellman on July 3, 1888, and is survived by her husband and three daughters, Mrs. McKinney and the Misses Lea and Elsie Wellman, by one brother, John L. Bowdish, and a sister, Mrs. F. K. Taylor, of Schenectady. Mrs. McKinney, who will be recalled as Beryl Wellman, formerly resided with her uncle, Mr. Bowdish, in Oneonta, and is a graduate of the Oneonta High school. Many in this city will remember her sojourn here. Mrs. Wellman was from early life a member of the Baptist church. She was a devoted wife and mother and a kind friend and neighbor, and numerous friends in her native county of Otsego will mourn her loss.

Many Madison Cows Condemned.

In Madison county the project which was begun in Otsego a year ago, for testing all herds and making the dairies of the county safe, has recently been begun. Up to this time about 1,600 animals have been condemned, this being fully one-fourth of those tested. For native cattle, or grades, $87.50 per animal is paid and for registered stock $182.70. Dr. Hewitt of the State College of Agriculture says the reason for so large a percentage of infected cattle is that in Central New York the herds have been inbred for a long time.

Fine Job Printing at Herald Office.

PERSONALS

Mr. and Mrs. O. N. Palmer have returned from a brief visit with friends in Cobleskill.

Miss Mary Burke is the guest for a few days of her sister, Mrs. M. J. Nugent, in Albany.

Merritt Bridges esq. of Morris was in Oneonta Monday on his way to Albany on legal business.

Albert E. Isger of Philadelphia, Pa., is visiting his sister, Mrs. George Kelley, Hudson street.

Mrs. Julian C. Smith accompanied the assemblyman to Albany Monday and will remain for the week.

W. C. Smith of Mt. Vision was in the city on business errands yesterday and a pleasant caller at this office.

Mr. and Mrs. S. H. Burgett of 19 West End avenue are spending a few days with relatives in Albany and Hudson.

Mrs. Chester A. Rote left yesterday morning for Binghamton, where for a few days she will be a guest of Mrs. Fred Gillen.

John J. Burke, who had been spending the week-end at his home in Oneonta, left yesterday for Albany and New York city.

Mrs. Paul Smaldone of Saratoga Springs returned home Monday after a week-end spent with her son, Santo, of 95 Center street.

Mr. and Mrs. F. H. Rose of Albany, who had been visiting the former's brother, L. C. Rose, of 409 Main street, returned home Monday.

Mr. and Mrs. Charles A. Bidwell of 215 Chestnut street, attended the funeral of their aunt, Mrs. Polly Bradley, at Franklin, Sunday.

Mrs. Ira Spencer and daughter, Margaret, of Glens Falls, who had been visiting Mrs. William Bell, 125 River street, returned home Monday.

Miss Connie Bottum of Troy, who had been spending the week-end at the home of Glenn Root of 49 Cherry street, returned home Monday.

Secretary Hicks of the Chamber of Commerce is confined to his room at the W. L. Hendy home suffering from an attack, it is thought, of the grip.

Miss Libbie Vrooman of the State Department of Agriculture at Albany spent the week-end at her home in this city, returning to the capitol Monday.

Kassan McLagen and sister, Helen, of Norwich, who had been visiting their brother-in-law and sister, Mr. and Mrs. W. J. McIntyre, of 46 Riverview avenue, returned home Monday.

Mrs. A. G. Kilmer and Mrs. Jesse Cross of this city returned home yesterday after spending the week-end with the latter's daughter, Miss Mary Cross, and with other friends in Binghamton.

Among the speakers announced for the State Educational conference to be held Friday and Saturday of this week at Utica is Prof. Charles A. Schumacher of the Oneonta State Normal faculty.

Hon. Charles Smith left Monday for New York, where today he attends a meeting of the directors of the Computing-Tabulating-Recording company, and on Wednesday of the federal reserve bank.

C. R. Bailey leaves this morning for Scranton, Pa., here as a representative of the Boosters he will consult with Hugh Jennings relative to a manager for the Oneonta baseball team for the coming season.

Miss Norma Ridgeon, who recently underwent an operation on her throat at the Fox Memorial hospital, is now at the home of her sister, Mrs. John M. St. Clair, of 15½ Washington street, and is reported to be recovering nicely.

Among those taking the morning train yesterday from Oneonta to attend Farmers' week at the College of Agriculture at Ithaca, were Dr. and Mrs. M. Hamilon of this city, Thomas Rich of Hobart and Mr. and Mrs. H. J. Ferguson and Mrs. W. G. Wright of Milford Center.

Secretary A. C. Lange returned to Oneonta yesterday from Syracuse, where he attended the state convention of the Y. M. C. A. held in that city over the week-end. Largely-attended meetings, and an inspiring religious atmosphere helped make the convention a true success, Mr. Lange said.

G. L. Chamberlin, who with his family has been for the past three years in the south, has returned to his native Otsego and will manage the family homestead farm in Schenevus. Mr. Chamberlin was in Oneonta yesterday to meet his wife, who arrived last evening after a visit with friends in Port Jervis.

Archie A. Bernard of Coudersport, Pa., who recently returned from the far west, where he went to marry, and who since his return has been visiting at the home of his parents, Mr. and Mrs. Herbert Bernard of Schenevus, was in the city yesterday. Mr. Bernard will remain until about March 1 with his parents, after which he returns to Coudersport to resume his editorial duties upon The Hammer and other publications there.

TAKES PAIN OUT OF RHEUMATISM

Keep Sloan's handy for backache strains and sprains, too

SLOAN'S Liniment has been sold for 39 years. Today, it is more popular than ever. There can be but one answer—Sloan's produces results.

Applied *without rubbing*, it *penetrates* to the afflicted part, bringing relief from rheumatic twinges, sciatica; sore, stiff, strained muscles; backaches, sprains, and other external pains, often the result of exposure. It leaves no greasiness, skin stain or clogged pores.

Get a large bottle for greater economy. *Keep it handy* for use when needed. Your druggist has it. Three sizes—35c, 70c, $1.40.

Sloan's Liniment (Pain's enemy)

MRS. FRANK E. WELLS DEAD.

Esteemed Resident and Active Church Worker Is Victim of Pneumonia.

Friends of the family learn with deepest regret of the death of Mrs. Frank E. Wells which occurred yesterday afternoon at 2:30 o'clock at the family home after an eight days illness of pneumonia. From the first, her condition had been the cause of much alarm, and despite the best medical efforts she failed to rally from the disease.

Mrs. Wells, who was Ollie M. Burdick, was born in the town of Thurman, Warren county, on March [illegible] 1868, a daughter of Hamilton J. and Mary (Ward) Burdick. On February 26, 1892, she was married to Mr. Wells and they started housekeeping in Thurman. Several years later they moved to Warrensburg and thence to Hudson Falls, where most of their married life was spent. They came to Oneonta 11 years ago, and have been highly respected residents.

Their married life was spent

Outside of the home, where her presence will be greatest missed, Mrs. Wells' chief interest was in the Methodist Episcopal church, of which she was a devoted member. She was a member of the Home and Foreign Missionary societies of the church and was always willing with any movement that had for its object the extension and betterment of the church and community. In her passing, the city loses a true Christian woman with many qualities worthy of emulation. The sympathy of all her friends will be extended the bereaved relatives. Mrs. Wells was also a member of the local W. C. T. U. and the Woman's Relief corps.

Besides her husband, Mrs. Wells is survived by one son, Birney H. Wells, of this city; by one sister, Mrs. Ella Taylor, of Hudson Falls, and by two brothers, John E. Burdick, of Belfort, Lewis county, and Fred H. Burdick, of Glens Falls.

Funeral services will be held at the late home, 33 Cedar street, Wednesday evening at 7:30 o'clock. Rev. Dr. E. M. Johns, assisted by Rev. J. C. Johnson, will conduct the services and the body will be taken to Hudson Falls the following morning for burial in the family plot there.

To Amend Norwich Charter.

A special meeting of the Common Council of Norwich was held Friday night for the purpose of drafting an amendment to the charter which will enable that city to purchase, condemn and construct a water work system. The purpose of this measure is to enable the city to acquire the present plant, which the company is said to be desirous of selling.

Births.

Born, Monday, February 14, to Mr. and Mrs. Clarence Otto, 35 Burnside avenue, an eight-pound son.

RECOMMENDS IT TO ALL SUFFERING WOMEN

Burlington Flats, N. Y.—H. C. Southworth, Dear Sir: Having received great benefit and a cure from the use of your BLOOD AND KIDNEY REMEDY, I am glad of a chance to express my thanks for such relief. I have doctored for the past twelve years with nearly every doctor I could hear of and taken all kinds of treatment and medicine but without relief. Two years ago I was at Utica hospital two weeks, but received no benefit. I had given up all hope of ever being any better, and was completely discouraged with trying to get well. Reading about DR. SOUTHWORTH'S BLOOD AND KIDNEY REMEDY and the cures it had performed around home, as I knew the people whose names appeared in testimonials, I concluded to try this great medicine. It was a lucky trial, for by its use I have been restored to health. I cannot praise this medicine any too much, and would cordially recommend it to all suffering women who have tried without relief the same treatments and medicines so commonly given.

MRS. ELBERT JOHNSON.

Dr. Southworth's Blood and Kidney Remedy is sold by all druggists and by general merchants where there are no drug stores. Distributors, Gibson Snow Co., Syracuse. H. C. Southworth, M. D.

The SOUTHWORTH MEDICINE Co
709 City Bank Bldg., Syracuse, N. Y.

Ballentine Funeral Sunday.

The funeral of the late Mr. and Mrs. Ballentine was held Sunday at the home of Fred Swart on the Emmons lake farm. There was a good attendance of neighbors and friends at the services, which were conducted by Rev. Henry R. Gifford, who as was stated in The Star of yesterday, himself passed away early in the evening of the same day. The bodies were placed in the Plains vault, and later in the season burial will be made in the family plot at Riverside. The bearers were Jesse Rowland, Boyd Pagan, Ellis Knapp and George Sigsbee.

Getting an Early Start.

Fred E. Stevens of Delhi, who is at present deputy sheriff, and Marshall Arbuckle, formerly proprietor of the Edgerton house at Delhi, have announced their candidacy for the Republican nomination of sheriff in Delaware county.

Trains are due to arrive as follows:

11:50 a. m., daily; 6:05 p. m., daily, except Sunday.

RHEUMATISM

Is one of mankind's deadliest foes. It seldom proves fatal, but if neglected, tortures the one afflicted for years and years. If you are a sufferer from this dread disease, go to your druggist and get 15 Salola Capsules and rid your system of the poisons which cause Rheumatism with its pain and suffering. Money back if not relieved.

Uncle Walt's Story

SECOND HAND

"YOU have the general appearance of a man who is hunting for trouble," volunteered the low-browed man.

"I am greatly annoyed," replied the professor. "I bought a second-hand typewriter, thinking I was getting a bargain, and it is a constant aggravation."

"A man always thinks he's getting a bargain when he blows himself for second-hand goods. Old Doolittle thought he was getting rich quick when he bought a surrey for $17. The man who sold it said it was as good as new, and it broke his heart to part with it, but he had to go to Florida for his health and needed the money. Most of the great bargains are offered by people who have to go somewhere, for their health, and they're wise in doing that, for if they stayed around the neighborhood where they sold the junk, they'd have their heads punched.

"Doolittle was so proud and happy over his bargain that it would have made you feel ten years younger just to look at him. He hitched up his family steed, which is named January, and then invited Aunt Julia and Mrs. Spry to take a buggy ride. He and his wife sat in the front seat, and the invited guests took the rear one, and all went as merry as a divorce bell for about a block.

"Then one of the hind wheels came off, and the surrey keeled over and dumped my aunt and Mrs. Spry onto a pile of gravel that had been left on the street by a cement contractor. He had put a red lantern on top of the pile as a danger signal to motorists. I think the fall must have unsettled Aunt Julia's faculties for the time being, for she grabbed up the lantern and broke it over Mrs. Spry's head. Mrs. Spry has her faults and failings like other people, but she is dead game, and the way she went for Aunt Julia was the prettiest thing I ever saw. I was sitting on our front porch where I could see the doings, and I don't know when I ever enjoyed myself so much.

"Unless you have seen a couple of refined and cultured ladies clawing each other around on a pile of gravel, you don't know what true sport is. Mrs. Spry showed some fine ring generalship, but my aunt had the best wind and she finally won out and came home victorious. 'And thus through camp and court she bore the trophies of a conqueror,' as the poet says, but there was no pleasure in living in the same house with her for a week or two. As soon as she cooled down she was sorry and ashamed, and would have given a million dollars if the row had never started.

"Women are so blamed queer. I've given up trying to understand them. When I get the best of a shindy I feel all swelled up for quite a while. I don't have any remorse unless I get the worst of it, and that doesn't often happen, for I am a pretty handy man. When I put a cupola on Tensmith's head last February I was so chesty for a month that everybody noticed it, and thought I must have been appointed postmaster.

"Well, after the women fell out of the rear seat of the surrey, old January ran away, and it was amusing to see that rig go bumping along the street on three wheels, with Doolittle hanging onto the dashboard and his wife waving her umbrella and yelling 'Fire!' January couldn't go very fast, being covered with ringbones and spavins and other blemishes; but he managed to knock several people down and do a lot of damage to property, and the old man had to pay out nearly $200 to avoid some damage suits.

"The one thing that keeps him from despair is a rumor that the man who sold him the surrey is coming back here to live. Doolittle will be at the depot to meet him, and it will be worth $5 to have a ringside seat when the meeting occurs."

Exercise Can Be Overdone.

There is a great deal of falsity about the assumed value of exercise in the open air, states the Medical Record. In moderation, that is within the individual limits prescribed by bodily limitations fixed by nature for each person, nothing is better. Proper exercise is as essential as food or air, but the growing boy in his excess of enthusiasm and knowing no limits to his endurance greatly oversteps his bounds in many cases and invites disaster.

Music Increases Output.

Transplanting rice in the Philippines costs about 40 centavos a day, with two meals, cigarettes and betel nut, but when music is provided the output of work is increased 20 per cent, says the New York Medical Journal. It is often a blind man who plays. He sits on the low dyke and sings the old folk songs to his guitar, and frequently the workers join in the chorus. Some of the large stores in the States also tried the effect of music with good results.

A Touch of Witchery.

Witchery is always a mystifying game to play. One of the players leaves the room, agreeing to tell who of the company holds his right hand high over the head while he is out of the room. When he returns all hands are extended to him and he can detect at a glance the hand he seeks, because the blood has left it, leaving it whiter than the others.—Exchange.

Lightkeeper 72 Hours Alone With Dead Wife

Midland, Ont.—Held to his post by the menacing storm which raged on Lake Huron, though nearly prostrated by the death of his wife, for 22 years his sole companion, Alfred H. Griffiths, keeper of the lighthouse on "Giant's Tomb," stood solitary vigil over his lights and his dead for three days and nights.

After the storm subsided, he summoned help from the mainland, 12 miles away.

Baby Recovers Voice.

Galesburg, Kan.—Helen Reed, two-year-old daughter of the Rev. and Mrs. C. M. Reed of this city, has recovered her voice after a tracheotomy operation in a local hospital. The little girl lost her voice five months ago, after what seemed to be an ordinary attack of tonsilitis. An X-ray picture revealed a wire paper clip in the trachea, or wind pipe, just below the vocal cords. An opening was made in the trachea in order to insert a silver tube through which the baby could breathe. The paper clip was removed and the little patient is now well.

Just What It Was.

I have a great fondness for trying on hats, whether I intend to purchase or not. Passing through the millinery department one day I picked up several hats and tried them on. A green-tailored one lying on the counter caught my eye and I picked it up, turned up first one side and then the other, studying it critically in the mirror.

"Do you know," I addressed my mother, "this hat looks exactly like a man's hat."

And then to my embarrassment and the onlooker's amusement an equally embarrassed man standing near replied: "It is a man's. It's mine."—Chicago Tribune.

Said She Didn't Mind.

In the absence of a neighbor my mother received for her several packages. Mother was not in when I came from school, and, seeing the bundles, I began an investigation, thinking that mother or sister had been shopping. One box contained a hat, which I tried on. The bell rang, and I ran to answer. It was our neighbor, and at sight of the hat upon my head she gave a gasp. I knew then what I'd done and apologized profusely. She was kind enough to laugh and say she didn't mind.—Exchange.

Too Old to Be Out.

Headline: "Aged Man of 57 Hit by Automobile." Such senile dodderers should keep off the streets.—Boston Transcript.

DAYS OF DIZZINESS

Come to Hundreds of Oneonta People

There are days of dizziness;
Spells of headache, languor, backache;
Sometimes rheumatic pains;
Often urinary disorders.

Doan's Kidney Pills are especially for kidney ills. Ask your neighbor.

Endorsed in Oneonta by grateful friends and neighbors.

Mrs. Jesse Horth, 7 Frederick street, Oneonta, says: "About five years ago I suffered from kidney trouble. I had a constant pain across my back and dizzy spells, and specks appeared before my eyes. My feet and limbs were swollen so badly I couldn't wear my shoes. After using five boxes of Doan's Kidney Pills I was entirely cured."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Horth had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

FARM POULTRY

BREAK FOWL OF BROODINESS

Hen Should Be Confined to Small Coop Raised Off Ground, Preferably With Slat Bottom.

When hens become broody, they should be "broken up" as quickly as possible, for the sooner this is done the sooner they will resume laying. To break a hen of broodiness she should be confined to a small coop raised off the ground, preferably with a slat bottom. Give her plenty of water to drink; she may be fed or not, as desired. Not much difference will be found in the time required to break her of broodiness, whether she is fed or made to fast, United States department of agriculture poultry specialists say. Usually from three to six days' confinement will break her, but some hens require 10 to 12 days.

The broody hen will be recognized by her inclination to stay on the nest at night, the ruffling of her feathers and her picking at anyone who approaches her, and by the clucking noise she makes. The fact that her broodiness has been broken up can be recognized by the disappearance of these symptoms.

Definition of "Culture."

Culture is then properly described not as having its origin in curiosity, but as having its origin in the love of perfection; it is a study of perfection.—Matthew Arnold.

New and True Macaroni

Ford
THE UNIVERSAL CAR
A Truck for City, Farm and Interurban Deliveries

In the few years it has been on the market, the Ford One-Ton Truck has mounted rapidly to popularity. During the past year, more than one-third of the total number of trucks sold in the United States were Ford One-Ton Trucks. It is a record of achievement made entirely on demonstrated merit.

Wherever the Ford Truck has been used—on the farm, in the city, its sure, economical service and simplicity have made it a success. So that today it is a necessity for the wholesaler, the retailer, the farmer. It offers efficient and economic hauling for every business. Demountable Rims and Pneumatic Tires.

The Ford One-Ton Truck costs less to buy than any other truck; it costs less to operate and less to maintain. Added to this, is the Ford service organization; spare parts and Ford mechanics are always convenient and ready to to keep the Ford Truck on the job. The Ford Truck cuts delivery costs. Because of increasing demand, orders should be placed without delay. We will give you prompt attention. If you have any doubts on the subject, drop in to the undersigned Authorized Ford Dealer and get further facts.

URGE CONTINUATION OF HAITIAN CONTROL

Element Favoring Withdrawal of American Troops Fixed at Five Per Cent by Admiral Knapp

Washington, Feb. 13. — The United States, having "put its hand to the plow in Haiti must not now turn back through withdrawal of the American forces there," Rear Admiral H. F. Knapp declared today in a report in which he presented in final form the result of his investigations in the island republic for the navy and state department.

Agitation against the American occupation of Haiti, Rear Admiral Knapp asserted, is inspired by a desire on the part of a small group, who, he said, represented at the most less than five per cent of the population. This group of agitators, he added, are working to gain a hearing and the sympathy of the people of the United States although their real object is to obtain abrogation of the treaty between the United States and Haiti and to bring about a return of the old conditions of government.

"Could this be attained," Admiral Knapp in his report continued, "I think that 999 out of every 1,000 Haitians would be glad to see the American forces remain to enforce good order. In other words, the Haitians, even the worst agitators among them, would be willing to have the United States act the part of policeman and otherwise leave them to their own devices.

"The 95 per cent would be exploited for the dishonest benefit of the five per cent if these ends were obtained.

"The people of the United States," the Admiral's report said, "should not allow themselves to be deceived by the words Republic of Haiti into believing that there exists in Haiti, or ever has, a republic in any sense, founded upon the expressed will of an intelligent and educated electorate. The so-called Republic of Haiti, left to itself, has been a tyrannical oligarchy in which those in power fattened upon the vast mass of the population; while those of the governing class out of power sought every opportunity to get into power, by fair means or foul, with the same corrupt personal ends in view."

Farm Specials.

Two hundred fifteen acres, 1½ miles from state road, near village, land lays just right, no stones or stumps. 25 acres of woodland including about 50,000 feet of timber, lots of good fruit, nine room house with running water; also tenant house, large basement barn with cement bottom, silo, running water; also another basement barn; in fact everything handy and complete to care for 30 or 40 cows. Don't wait. Going for $4,400.

One hundred six acres, one-half mile from state road, one mile from town, 10 acres of wood, sugar bush, orchard, large house. Basement barn, cement floors, silo, best of water, $3,500.

Twenty-three acres, near city limits, good house, basement barn. Must be sold at once.

Many more good propositions. Make your wants known. We sure have them. R. M. Coller, real estate and general insurance, Main and Broad streets, Oneonta, N. Y. Phone 669-J. 2t

"I am sure Resinol will heal that rash"

"It is a doctor's prescription and has been thoroughly tested through years of use in treating eczema and similar skin ills. Combining only the purest and gentlest ingredients it is specially suited to delicate skins or irritated inflamed surfaces. It promptly relieves itching and burning and *hastens the healing*. Aided by Resinol Soap the relief is even more prompt." Resinol products at all druggists.

WEST-ENDERS ENTERTAIN

Enjoyable Parties Held Last Evening at Two Homes in Oneonta's Enterprising Suburb.

There was an enjoyable valentine party last evening at West End, when the Misses Jane and Alice Goddard entertained about 35 of their young friends at the home of their parents, Mr. and Mrs. C. E. Goddard, 5 Kearney street. Early in the evening, the young folks sat down to a delicious course dinner which put all in a happy mood. The tables were prettily decorated with hearts and valentines, crepe paper also being used to fine effect. The remainder of the evening passed with Valentine's day games, music and dancing. At a late hour, the young people departed for their homes declaring that they had had a thoroughly enjoyable evening, and thanked their young hostesses.

About 30 friends of Mr. and Mrs. Parks Lyke surprised them at their home on Madison avenue last evening. Social intercourse and a pleasing musical program quickly whiled away the hours of the evening, and at a late hour delicious refreshments were served. Mr. and Mrs. Lyke proved to be ideal entertainers, although taken by surprise, and an evening a real enjoyment was passed by all present.

Bad Weather But Good Supper.

Despite the unfavorable weather, there was a fine attendance at the meat pie supper served at the Elm Park Methodist church parlors last Friday evening by the members of the Booster class. An excellent menu was prepared and everybody who was present said the meal was "just right." Following the dinner, an enjoyable entertainment was put on by the young people. The proceeds of the evening were about $45.

News of the Sick.

Hazel James, the young daughter of Mr. and Mrs. Walter James, who underwent an operation at the Fox Memorial hospital for mastoid abcess, several weeks ago, is resting comfortable at the family home, 394 Chestnut street, and is now definitely on the road to recovery.

Loretta Krischbaum is confined to the family home at 144 River street by a severe attack of pneumonia. Dr. Tarbox, the attending physician, reported yesterday that her condition was somewhat improved.

Mrs. Andrew Duke of 299 Chestnut street, who has been suffering with rheumatism for several weeks past, is on the gain.

A slight improvement is reported in the condition of Mrs. Marvin Edmunds, who has been seriously ill at the family home, 145 River street, for some time past.

Other Items of Interest.

Several auto-loads of Plains church-people went to Otego Sunday evening, where they attended a conference held in the Otego Methodist church, which is also presided over by Rev. C. C. Volz. A very profitable and enjoyable meeting was reported.

Skiing is the order of the day on "West End hill," a large number of young people enjoying the sport every day. All the young folks appear to have a fine time—it certainly is great sport.

Mrs. T. E. Blanchard has returned to her home after spending several days with friends at Cobleskill.

Mr. and Mrs. George Whitlock, daughter, Lola, and son, Laverne, of Davenport Center, were Sunday guests of Mr. and Mrs. Fred Rose, 3 Harver street.

Mr. and Mrs. C. S. McKinney and daughters, Florence, Anna and Marion, returned Sunday from Albany, to which city they were called by the illness of Mrs. McKinney's uncle, William Proper, who is a patient at the Albany City hospital. Mrs. McKinney's father, D. E. Wood, returned with them and will be their guest for some time.

Morris Truesdale of Johnson City has been the guest for a few days of his son and daughter-in-law, Mr. and Mrs. Fred Truesdale, of 368 Chestnut street.

Mr. and Mrs. C. A. Keith of the Plains spent Sunday with his father, George Keith, at Laurens, who has been suffering for some time with a severe attack of bronchial pneumonia but now is slowly improving.

Indefinite.

"I don't like to throw bouquets at myself, but I must say folks are afraid of my drive."

"Golf or charity?"

The City Bird.

"The sparrow soon adapts itself to environment."

"What now?"

"Saw one downtown today which was building a nest of burnt matches."

There is none other into which such a high quality of ingredients are put as Baker's certified flavoring extracts. At all grocers. 1w

FAST TIME SHOULD FEATURE DOG RACES

New Sleighs to Be Used at Annual Hudson Bay Derby, Soon to Be Held

The Pas, Feb. 14.—(By Canadian Press)—Fast time should feature the fourth annual Hudson Bay Dog Derby, to be held from here to Flin Flon and return, a distance of approximately 200 miles, for a purse of $2,500, March 1. The Alaskan method of racing has been adopted by the "musher" and already a great improvement in the speed of the teams has been noted in the preliminary trials. What was thought to constitute a record when Gone the Derby won of late, covered 100 miles in 12 hours and 14 minutes, has been beaten by the local racing teams in their workouts, one contestant driving a team of nine huskies, covered 50 miles in 5 hours and 14 minutes. This is three minutes an hour more than was possible under the old single file system of harnessing, when hardly seven miles an hour could be made.

This year a light racing harness and sled and the harnessing of two dogs abreast instead of the hitherto single-file with a heavy harness and a carriole of considerable weight, is in vogue. The new sleigh weighs under 25 pounds and the total weight of the harness for 13 dogs will not average more than a half pound to a dog.

One of the great faults of the single-file system of driving was that going up hill it caused the entire weight of pull and fall on the dog nearest the carriole and destroyed whatever chance there was for speed in a pinch. It lessened the speed and uniform working of the team as a whole and at times it inflicted great hardship on the sleigh dog.

On this year's course, there are three hills to climb going and coming, but otherwise the route is an easy one over lakes and beaten trails, where the ground is even. Probably 60 percent of the distance is over lakes. This also is another factor for greater speed. A short rest at Flin Flon on the outgoing end, to feed and rub the dogs, is the only stop officially provided for that only long enough for the cards to be signed and the dogs checked up. It is optional with the drivers to remain as long as they like. In all other respects, the race is a no-stop one.

The type of dogs in the race differs in only two respects from the reliable husky or wolf-mongrel, so familiar in Northern Manitoba and Saskatchewan. Stewart possesses a team of 11 Siberian coast dogs, with very sharp pointed ears, low in the body and well lengthened. Goyne is the other exception, with a team of 13 setters of the setter-mongrel type.

Exceptionally fast time has been made by Winterton, driving Morgan's team of huskies in recent workouts. Larry McKay and Sam Pranteau have two high-class types of husky teams, wild and only partly controllable. Because he could not control them two years ago, McKay lost the race.

HORSES VERSUS TRACTORS.

Machines Have Advantage of Heavy Work: Animals on Lighter Tasks.

A study of tractor operation on 87 New York farms for a year by the State College of Agriculture shows wide variation in the relative efficiency of tractors and horses. At heavy work, such as plowing and disking, a tractor accomplished as much in a day, on the average, as from seven to nine horses. At harrowing, a tractor accomplished as much as six horses, at binding corn or grain as much as from four to five horses, and at mowing as much as three horses. This helps to explain the general opinion of these farmers that the use of tractors is profitable on heavy operations but that horses are cheaper for the light, rapid operations.

Can't Supplant Horses.

Although a tractor can do as much work as six to nine horses in the heavy field operations, it should not be inferred that farmers can do without anywhere near this number of horses after purchasing a tractor. On each of 46 farms in a general farming region, an average of 1.6 less horses were kept after purchasing a tractor. At the same time the average size of each farm was increased by nearly 17 acres. About 3,700 pounds less grain and 13,600 pounds less hay to the farm were fed to horses after purchasing tractors. This saving was partly due to the fewer horses kept and partly to the fact that somewhat less grain was fed to each horse after the purchase of a tractor. On these 46 farms the farmers felt that they needed an average of 2.4 fewer horses and 4 months less of hired help than would be needed if they did not use tractors.

The Time Element.

The number of horses that a tractor will displace on any farm depends largely on whether the tractor is used to replace horses at the time of the greatest pressure of horse work, or the number of horses kept on a farm is determined by the requirements of plowing and fitting, a tractor which will do a large part of this work efficiently will displace some horses.

On many New York farms, the number of horses kept is determined by the requirements for haying, harvesting and cultivating crops. With present conditions, the farm tractor is less efficient in the light, rapid operations of haying and harvesting and is not adapted to cultivating. On such farms fewer, if any, horses can be displaced.

A Bird of a Pun.

The prize for the season's worst pun goes to Christopher Morley. Observing four ladies waiting outside a pay car on a siding, ready to "have" the men as they come out for a contribution to some, doubtless, worthy cause, he paraphrastically comments: "Where the cars each is, there are the mulct yers."—Boston Transcript.

No Wars Among Eskimos.

Warfare and brutality of any kind is unknown among the Eskimos. When they have differences they adjust them by staging "singing duels," the old men of the tribe acting as judges. In their hunting expeditions they endeavor to give their quarry as little pain as possible.

Crazy Surgeon Kills Woman Under Knife

Berlin.—The remarkable case of a doctor going insane during an operation is reported from Schwerin. Councilor Surgeon Gebhard, while performing a minor operation on a woman, suddenly was seized with the hallucination he was in a clinic dissecting a cadaver. Doctor Gebhard accordingly cut up the woman, who died on the table.

On another occasion he cut off a soldier's arm and then failed to take measures to prevent the soldier from bleeding to death.

Doctor Gebhard now is in a Berlin sanatorium.

Bell That Worked Miracles.

Many tales of the supernatural are told concerning evil spirits and the efficacy of bells in warding them off; likewise regarding the power of consecrated bells for bringing blessings. In an old chapel at Killin in Perthshire, Scotland, was a bell called that of S. Fillan, which had the reputation of curing lunacy. After the sufferer had spent a night in the chapel he was in the morning placed with great solemnity under the bell, and in many cases recorded in the old chronicles the faith was rewarded.

Whitening Piano Keys.

Yellowed piano keys are sometimes whitened to a certain extent by leaving the piano open every day, exposing the keys to the light. Another treatment is to lay on the keys a paste of whiting and a solution of potash, allowing it to remain for twenty-four hours.—Housewife.

The Chinese Years.

Like our own leap year, every third year in China is longer than its predecessors, but the Chinese add a whole month, instead of an extra day, to make up for the time lost, according to their calculation of the calendar.

WOMEN AND INCOME TAX.

Interesting Facts Brought Out by Last Year's Returns

Statistics given out by the New York State Income Tax bureau contain the surprising information that of the 745,000 income tax returns filed during 1920, over 144,000 were filed by single and married women. These figures show that one-fifth of the taxpayers of New York state who contributed toward the cost of administering the affairs of the state were women.

Another important fact is that 101,141 single women, not heads of families, filed returns and over 99 per cent of them paid a tax running in amounts from one cent to many thousands of dollars. The single women of the state made a remarkable showing when it is considered that the number of single males totaled less than 200,000—to be exact 199,000.

An illustration of the part women are sharing with men in carrying the burden of bringing comfort and happiness to dependents is furnished through the statistics which show that over 50,000 single women filed returns as supporting heads of families as against 54,000 single males who made returns as heads of families.

Under the law, husbands and wives are permitted to file separate returns. The joint or combined return proved the most popular, however, as 319,000 joint returns were made during 1920 by husbands and wives and in practically every case the return was made out by the husband.

The figures just compiled also show that 612,000 out of 745,000 individuals paid a tax and the other 133,000 filed returns, but exemptions ate up their income.

Fine Job Printing at Herald Office.

Too Fat?

A satisfying weight reduction method; safe, pleasant. Brings slenderness, better health and happiness. Get a small box of Korein (pronounced *koreen*) at the druggist's. Follow directions. You are allowed to eat sweets, etc.; no starvation or strenuous exercising! Your life becomes worth living, with clearer mind, improved figure, buoyant step, cheerfulness. Look and feel younger. Add years to your life. Ask for KOREIN TABULES. Get thin and stay so. Brochure mailed free. Korein Co., NH-65, Station X, New York

ONEONTA PUBLIC MARKET

SATURDAY, FEBRUARY 19TH, 9 TO 1 P. M.

COR. MAIN AND MARKET STREETS

Mr. Producer: Here's your opportunity to sell your surplus produce of all kinds.

Mr. Consumer: Buy here and secure your produce direct and at moderate prices.

By both co-operating the Public Market can be made a great utility to each.

TEACH YOUR WIFE YOUR BUSINESS

Because—if anything happens to you—if the knowledge, experience and keen personal interest you have devoted to your affairs, were suddenly taken away—she might be dependent on others. You don't want that—so you seek some means of providing against such a contingency.

Life insurance is mighty good—shouldn't be neglected. A growing bank account or trust fund is excellent.

INVESTMENT SECURITIES

Of the right kind are par excellent because they yield the highest revenue consistent with safety. They establish security—income—confidence in the future.

The exceptional resources we maintain are at your service

Does your gasoline mileage hold up in cold weather?

You should get as many miles per gallon in winter as in summer

The majority of motorists are satisfied with less mileage in January than they get in August. There is no good reason why they should be, however.

Excessive "idling" of motors in winter, encouraged by difficult starting, is a large factor in keeping cold weather mileage low.

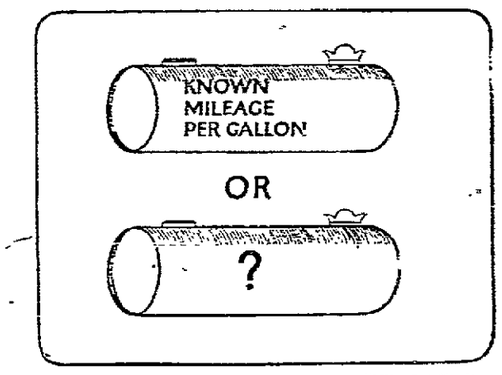
Carburetor adjustments to give heavy mixtures necessary to start slow-vaporizing gasoline are also responsible for the apparent low efficiency of many motors in winter.

One Way to Get Full Mileage in Coldest Weather

Use straight-distilled Socony gasoline. It is equally efficient in cold and hot weather.

The continuous chain of boiling-point fractions that it contains affords instantaneous starting at low temperatures—*with no sacrifice in power or mileage.*

The uniform quality of Socony gasoline is never more evident than in the coldest weeks of winter. The methods by which it is made insure its absolute dependability—you can always count on it for the maximum mileage of which your motor is capable.



Poor gasoline, the extravagant habit of motor "idling", difficulty in starting—these all tend to reduce mileage per gallon in winter. Socony gasoline, being straight-distilled, is absolutely uniform the year round. Socony mileage is always high and always certain.

No Offensive Fumes From the Exhaust

Socony gasoline gives off practically none of the offensive exhaust fumes so common with poorly burning gasoline. Because it is so highly volatile and clean-burning it leaves little carbon on the cylinder walls and spark plugs. It is just as economical in winter as in summer—our carefully supervised refining processes keep it uniform.

The Well-Known Sign of Service

The sign of the Socony dealer is your assurance of superior quality and supreme service. You'll find Socony dealers an agreeable sort, ever ready to lend a helping hand, competent and obliging. Look for the red, white and blue Socony Sign.
